## CONSENT FORM:

- I ..... understand that any energy systems integrated into these sessions (including HelioSol, BodyTalk, Reiki, Tuning Forks, First Light Flower Essences, etc) are intended to enhance relaxation, increase communication within the areas of the body, and educate me to possible energetic or emotional blocks that may be creating pain, discomfort or dis-ease for my animal.
- These treatments are non-invasive, safe and objective, and the practitioner will not diagnose, treat, fix any issues, or prescribe medications. Instead, the session will utilise the animal's own innate intelligence to re-establish communication so its Body Mind can work for optimum wellbeing.
- I understand that these sessions work in conjunction with any advice, medication or procedure that has been provided by veterinary professionals, or any other practitioners, and is not a substitute for their recommendations and care.
- If I have any questions or concerns, I will address these promptly with the practitioner.
- While in the clinic area, I take full responsibility for my own safety, and all those in my care eg animals, children.
- I agree to pay the advertised fee at the time of service, or before the session starts if it is a distance session.
- I also agree to give 24 hours notice should my appointment need to be postponed or cancelled, and that if I do not notify within sufficient time - I will still be charged a session fee due to inconvenience to the practitioner, and potential loss of client booking.
