# OF THE WORLD HEALTH ORGANIZATION<sup>1</sup>

THE STATES Parties to this Constitution declare, in conformity with the Charter of the United Nations, that the following principles are basic to the happiness, harmonious relations and security of all peoples:

Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity.

The enjoyment of the highest attainable standard of health is one of the fundamental rights of every human being without distinction of race, religion, political belief, economic or social condition.

The health of all peoples is fundamental to the attainment of peace and security and is dependent upon the fullest co-operation of individuals and States.

The achievement of any State in the promotion and protection of health is of value to all.

Unequal development in different countries in the promotion of health and control of disease, especially communicable disease, is a common danger.

Healthy development of the child is of basic importance; the ability to live harmoniously in a changing total environment is essential to such development.

The extension to all peoples of the benefits of medical psychological and related knowledge is essential to the fullest attainment of health. Informed opinion and active co-operation on the part of the public are of the utmost importance in the improvement of the health of the people.

Governments have a responsibility for the health of their peoples which can be fulfilled only by the provision of adequate health and social measures.

ACCEPTING THESE PRINCIPLES, and for the purpose of co-operation among themselves and with others to promote and protect the health of all peoples, the Contracting Parties agree to the present Constitution and

The Constitution was adopted by the International Health Conference held in New York from 19 June 16 22 July 1946, signed on 22 July 1946 by the representatives of 61 States (*Off. Rec. Wld Hlth Org.*, 2, 100), and entered into force on 7 April 1948. Amendments adopted by the Twenty-sixth, Twenty-ninth, Thirty-ninth and Fifty-first World Health Assemblies (resolutions WHA26.37, WHA29.38, WHA39.6 and WHA51.23) came into force on 3 February 1977, 20 January 1984, 11 July 1994 and 15 September 2005 respectively and are incorporated in the present text.

Zero draft report of the Working Group on Strengthening WHO Preparedness and Response to Health Emergencies to the Seventy-fifth World Health Assembly

I. 3 BACKGROUND, MANDATE, AND SCOPE OF THE MEMBER STATES WORKING GROUP, ON STRENGTHENING WHO PREPAREDNESS AND RESPONSE TO HEALTH EMERGENCIES (WGPR)

1. The Member States Working Group on Strengthening WHO Preparedness and Response to Health Emergencies (WGPR) was established with a mandate derived from resolution WHA74.7 (2021) and by decision WHA74(16) (2021). The WGPR successfully submitted its first report and the latter mandate was fulfilled successfully with the submission of the report which was adopted by consensus by the WGPR and welcomed at the World Health Assembly at its second special session (29 November–1 December 2021), which led to the historic formation of the Intergovernmental Negotiating Body (INB) to draft and negotiate a WHO convention, agreement, or other international instrument on pandemic prevention, preparedness and response (PPR). An interim report was also submitted to the Executive Board at its 150th session (24–29 January 2022), fulfilling part of the former mandate.

2. This final report is developed to fulfil the rest of the mandate derived from resolution WHA74.7, that is to submit a report with proposed actions for the WHO Secretariat, Member States, and non-State actors, as appropriate, for consideration by the Seventy-fifth World Health Assembly, including a proposal for onward work to close critical gaps that remain in pandemic PPR not covered by the INB.

3. After the 150th session of the Executive Board, the WGPR met an additional three times between February and May 2022. Member States continued to emphasize: prioritizing equity as an objective and outcome in the final report; the critical role of strengthening of the International Health Regulations (2005) (IHR), including through implementation, compliance and potential amendments; and the need for sustainable financing, both for WHO and for broader pandemic PPR. The WGPR also discussed the

To request the WPRG To prioritize the assessment of the benefits of developing a WHO convention, agreement or other international instrument on pandemic preparedness and response and to provide a report to be considered at the special session of the Health Assembly.
