

Toxin-Free Carpet Shampoo & Upholstery Cleaner

Want to get those carpets freshened up?

One happy consumer reports the following ... *"I just finished shampooing our carpets using the following Shaklee Get Clean Formula as the shampoo in a carpet shampooer. The carpets looked fabulous when they were finished."*

- 3 ¼ cups water
- ½ teaspoon Basic H2
- 1 tablespoon Nature Bright™

Note:

1. This formula is shared by Gordon Crouse, Executive Coordinator from Canada who was a professional carpet cleaner before he began to work his Shaklee business full-time.
2. Pre-spray all bad spots with a solution of Basic H2 ... ¼ to ½ teaspoon in a 16 mL spray bottle of water.)
3. NOTE: Always do a pre-test on an inconspicuous spot on the rug or the upholstery ... some dyes are not colour-fast!

Toxin-Free Carpet Shampoo & Upholstery Cleaner:

"I just finished shampooing our carpets using the following Shaklee Get Clean Formula as the shampoo in a carpet shampooer. The carpets looked fabulous when they were finished! ... 3 ¼ cups water ... ½ teaspoon Basic H2 ... 1 tablespoon Nature Bright™."

Notes:

- This formula was originally shared by a professional carpet cleaner
- Pre-spray all bad spots with a solution of Basic H2 ... ¼ to ½ teaspoon in a 16 mL spray bottle of water.
- Whenever cleaning carpet & upholstery, always colour-test with the cleaner being used in a small inconspicuous spot (surprisingly, some carpet & upholstery dyes are not always colour-fast)
