From Veronica Mobley

"I grew up in New York City. I received my associate degree in Fashion Design from the Fashion Institute of Technology. I have over 30 years of designing experience working in the New York fashion and garment industry and have held design positions with various companies, such as Leslie Fay, Ralph Lauren, and David Warren, to name a few."

"I specialize in the development of garments from conceptual design sketch and pattern to the final model fitting through production to the retail consumer. I constantly travel to Paris, London, and Milan to keep up abreast of designs trends and fashion-forward styles."

"In 1996, I launched Vee's Design Studio, a ladies' custom design boutique store in Mt. Vernon, New York. The business grew to include religious vestments and limited apparel for men. There, I provided my customers and repeat clients with the quality service and attention they seek for that perfect fit and designs that satisfy their uniqueness."
