MTM CORPORATION “Training Mature Minds”

MTM is a dream in progress created to fill a much needed gap in services provided to deserving young people in Limestone County and the City of Athens. Our goal is to provide the services, support and resources necessary to help these youth develop into whole, healthy and complete adults. Our approach to service is holistic, and our commitment to youth is whole-hearted.

MTM hopes to serve deserving youth in two ways, the “Unsung Hero Scholarship Fund” and a community youth center. The “Unsung Hero Scholarship Fund” was created to provide graduating seniors with the financial support they need to pursue dreams of higher education. The scholarship targets graduating seniors in Limestone County and the City of Athens who have to work a little harder for success, whose life situation is not always conducive for success, and who need that extra bit of encouragement

to realize their full potential. We hope that this vote of confidence in their ability and investment in their future inspires them to never give up. We are not always born with the life we want, but with hard work and deep faith we can create a life we can live with forever. All donations collected for the scholarship go directly to the scholarship recipients.

The vision for the community youth center is to provide deserving youth of Limestone County and the City of Athens with an oasis of resources to help them set goals and realize dreams that at first glance seem impossible. The community youth center will offer services in the following areas—Mentoring, Technology, GED Preparation, SAT/ACT Preparation, Tutoring, Drama, Foreign Language, After School, Exit Exam, Summer Camp and Entrepreneurship. We hope that these services will help our youth grow into contributing members of society while increasing their capacity for personal success. Again, a holistic approach for complete success will produce a fruitful and productive output.

MTM believes that with professionalism and a commitment to providing high quality, high capacity services, we can restore that glimmer of light, that ray of hope, that dream for a better tomorrow that is sometimes stolen from our youth by the hardships of life. If we would each commit to helping one person along their journey, then our efforts will not be in vain.

“Train up a child in the way he should go and when he is old, he will not depart from it.” Proverbs 22:6 is what MTM Corporation is all about, forever, Amen!

Remember:

“Everybody needs a cheerleader. The young people around you need you to motivate them to greatness by encouraging and supporting them. Oh, I have known a few people of uncommon resolve who have made it on their own, but most people who achieve a measure of success in life have had someone who stood with them and supported them.

No doubt there are budding athletes, singers, dancers, doctors, firefighters, civic leaders, pilots, and homemakers in your life, maybe even under your own roof. In fact, I believe you may well be surrounded with heroes who simply need some support to fulfill their destinies.” --- Author T.D. Jakes – **MTM is your Cheerleader!**
