Photography Videography

First off, lets pick out what service I'll be providing you during this journey.

Thank you for inviting me to photograph or video your upcoming birth! Hiring a birth photographer or video frees up your support people and ensures you get those important moments captured. Birth & labor are very unpredictable and therefore these are not typical portrait sessions. The lighting may be dim, and planning what's going to happen can be difficult. I shoot your labor & birth as it unfolds. I am sensitive to your needs as a laboring woman and understand our role is to document quietly and unobtrusively. Having been on both sides of the birth process, I also understand which special moments you may want and how to ensure that they are captured forever. Below are some guidelines to ensure that I can give you the best experience possible. Please read and then provide your signature.

Your birth session includes:

1. a maximum of 10 hrs of photography for labor, delivery, and post-delivery
2. Hi-res printable images provided via pixieset (most images will be B&W)
3. If you are hiring me for video, you will receive a 3-7minute musical recap of you laboring. Video services are not available for c-section deliveries per most hospital regulations. For natural birth, vaginal footage is not allowed, only photos are allowed.
4. **additional hours of photography or videography can be added if necessary for \$75/hour
5. In most cases our time begins when I arrive at your birthing facility (when you are in active labor) and ends 1-2 hours after birth. In the event that your labor & delivery process lasts longer than 12 hours, I reserve the right to end our services after 12 hours if necessary or switch off with each other if the other photographer or videographer is available.

The total for your birth session is \$1050 • a non-refundable \$450 deposit is required to secure your due date • the remaining payment is due 2 weeks before your due date

“It’s Time!” Please contact me as soon as you **think** you might be in labor so I can begin making plans to be there. Even if it’s 2 a.m. Even if it’s a false alarm, I’d much rather be ready to roll than to miss the event! It is also helpful for me if you check in after doctor’s appointments in the weeks before labor and

let me know how things are progressing and/or if there will be any changes to your initial birth plan. Have someone contact me again when it's confirmed that you're in labor (when you're about 5-6cm), and I will start making our way to your home, birthing center, or hospital.

Labor & delivery floor/location special instructions for "after hours"

Additionally, tell me how you want your birth to go? As a mom that has labored five times I know my way around a delivery room in addition to capturing many births. Are you wanting distractions, such as socializing during laboring? Do you want peace and quiet during your birth? Let me know your plans so I can ensure that those are met so I do not cause discomfort, or can assist with any visitors not complying with your wishes as well. My general take on being in the room with a mom is to be a "fly on the wall" and not disturb you. I know this is a special moment for you and your birthing partner and that moment will stay between you two.

Birthing Facility Guidelines Please confirm that photography/Video is allowed at your birthing facility beforehand. Please also know that we will be limited by the guidelines (if there are any) of the facility and/or the delivering doctor/midwife. Negotiation for moderation of the guidelines is your responsibility. If you're planning a birth at home or in a birthing center, please check with your midwife AND your back up hospital in case of a transfer. I try to be unobtrusive and document the birth as best as I can with the available lighting. No props, no flash (unless absolutely necessary and we will ask

mom's permission first), no posing, etc. Because of this, I may have low light situations and images/video may be more raw, perhaps with a bit of film grain or motion blur. Most images will be in black and white.

Cancellation, since the timing of births is so unpredictable, I cannot guarantee that we will be able to make the birth. If I can not make it (due to unforeseen reasons such as illness, weather, etc.) all monies paid will be applied toward a fresh 48, newborn session with me and an additional family shoot. If I cannot provide coverage as a result of your actions or due to circumstances beyond anyone's control, all monies paid will be applied toward a newborn session. Examples of this include, but are not limited to: failure to provide adequate notice of the baby's birth; an unexpected transport for a c-section; a dramatic change in the birth plan. State of emergency or Pandemic not allowing multiple people in the room. If you decide to cancel my services for any reason, please let me know at least 30 days before your due date. Your initial deposit is non-refundable in this case, but any other monies paid up to this point will be fully refunded. I take the utmost care with respect to the post-production and delivery of all photographs/video. However, in the event that I fail to comply with the terms of this agreement due to any event or act which prevents the delivery of the photographs from the birth, my liability to you is limited solely to a refund of all money paid. If you have elected to have me do video for your birth and I do not make the birth for reasons stated above, I will provide 2 family photo sessions. Copyrights We reserve the right to use any image for display, publication, or other purposes, however we will honor any requests by the family for using, or not using certain images when necessary. With this birth package you will receive a copyright agreement that allows you to reprint any images for personal use. You may not sell these images or use them for any commercial use without the written approval of the photographer.
