Sir:

Attached is evidence of criminal activity of a most serious nature involving both the United States and the State of New Mexico. The information provided places me, my immediate family, and other New Mexicans in continuous danger without recourse to any competent court of law, state or federal.

I brought the entire matter to the attention of the United States District Court for the District of Columbia recently under authority of 18 U.S.C. Section 2382 only to be rebuffed. The Department of Justice was kept informed during the process and I received a letter from it to bring the matter to your attention.

Accordingly, the attached documents contain sufficient detail of an insurgent criminal conspiracy active across the State and District of New Mexico. I stand ready to provide you with whatever additional information you might need; however, there is more than sufficient information for any competent investigator to proceed without additional support. I alert your attention to Exhibit 4 attached to the Response.

Please don't tell me you cannot investigate a case while it is active in federal court because the court is not competent and the case cannot be active, in view of the foregoing, to be active therein.

Sincerely,

cc: Office of the DOJ
