2013 ATCMW Quilted Wall Hanging  
Limited Raffle

## President's Message

Another Specialty has come and gone. Thanks to *Russ Hammond*, our Specialty Chairperson for making all the arrangements and setting up our trophy table. And another thanks to *Jim Hession* for arranging and hosting our Hospitality table.

The Kathryn Goodwin Memorial Trophy which has been our Best of Breed trophy for many, many years, was retired this year by Joval Kennels. This is done by winning it three times, not necessarily with the same dog. This trophy was retired once before in 1997 and redonated by the winners, E. Forbes Gordon and Carol Scott. Joval Kennels has decided not to redonate it, so your Board of Directors is researching options for a new trophy that will be in place at our Specialty next year.

Our members supported our Specialty ad campaign with loads of ads this year. We have showcased them in this edition of the Newsletter so that everyone can see them! They start on page 14.

Our next event is the September membership meeting and Board meeting. It will be at Frying Pan Park again this year...a great location with a huge covered pavillion in case our weather doesn't cooperate. I think our members have made it clear that they prefer events where our dogs can join us for the activities!

Our elections will be held at that meeting and shortly thereafter, an email notice will go out describing some of the jobs that need doing during the year and asking for volunteers to fill those spots. *We are looking for people who will do the job one year, teach someone else while doing it the second year and then turn it over to the new person third year. That way we can rotate the jobs among our members and everyone gets a chance to contribute!*

Our biggest news is the construction of the new website! Thanks to Karl Broom for all of the time and effort he has put into this project over the years. The new site is dynamic and user friendly and totally up to date. If you haven't been there yet, do [click on www.airedales-dc.org](http://www.airedales-dc.org) to the new design!

Airedale Terrier Club of Metropolitan Washington  
Board Meeting Minutes via Teleconference  
May 9th, 2013

The Board Meeting was held via Teleconference on May 9th, Thursday, at 7 pm. The Board agreed that this was a successful new tool!

Attendees: President Burmaster; Vice President Karl Broom; Treasurer Deb Carroll; Corresponding Secretary Jeanne Edmond, Recording Secretary Ginger Robinson; Board Members: Jessica Rabin & Pam McKusick.

At 7:00PM, Club President Corally Burmaster called the meeting to order.

Old Business:

1. Treasurer Carroll reported an opening balance of \$5,695.62. A deposit of luncheon money, membership renewals and rescue donations was made which totaled \$3,118.90. Checks written for expenses for the same period totaled \$2,078.73, leaving the Club's account balance as of May 9, 2013, \$6,735.79. A check for \$1,352 will be issued to recue to transfer donations to that account and a check for \$325 will be written to reserve the Pavilion for the Fall Meeting at Frying Pan Park.
2. Website Committee update by Karl Broom provided no progress towards our new site. He indicated frustration with the team that had volunteered their efforts. Deb Carroll requested that the event schedule be added to our old existing site.
3. Pam McKusick reported no progress on the non-profit status for Recue. The attorney that volunteered his time seems to be too busy and thinks this can't be done. President Burmaster believes this to be incorrect information given her involvement with Hunting & Working Airedale Club.
4. No other unfinished Business was reported.

New Business:

1. Schedule for the rest of the year:

**Picnic will be at Frying Pan Park on Sunday, September 15, 2013.** This will be an Election Meeting as well. It was suggested that we also offer Canine Good Citizen (CGC) in the afternoon after our club lunch. We should advertise in the local community paper, Facebook, Craigslist requesting a sign-up ahead of time. President Burmaster said that 8 minutes per dog is needed for the evaluation. Jeanne Edmond requested a \$325 check to reserve the Pavilion.

**Saturday, July 20, 2013 will be a Luncheon Meeting.** It was suggested to be at Seibels Restaurant, in Burtonsville, MD. Recording Secretary Robinson is sending some additional suggestions to President Burmaster for a Maryland location.

**Airedale Square/Catonsville Kennel Club at Howard County Fairgrounds, Sat. October 12<sup>th</sup>.** Nora Dudman will be our Hospitality Hostess.

**In November, we will ask Dr. Hinn to speak to the Club at Cedar Knoll or possibly another site.**

**Scottish Walk in Alexandria, VA will be Saturday, November 30<sup>th</sup>.** (This is according to the City of Alexandria's Event Website. Recording Secretary Robinson does not see this posted by Campagna Center). Susan Crawford will continue to act as Chair for this event.

2. Suggestions for a Nominating Committee were made: Franklin Goodyear, we hope will Chair with additional members Mal Graham and Ginger Robinson. Nancy Nolton and Ann Riley will be alternates. The existing officers will continue, but we must select a new Board member since Joan Schessler's resignation.
3. New Best of Breed Trophy

Valeria and John Rickard retired the Kathryn Goodwin Memorial Trophy by winning it three times. They have elected not to redonate to the Club. This means that the Club must design and commission a new trophy. Several avenues are open to us. We can do a trophy with a large cup or tray, or we can do a trophy with an Airedale on it.

If we choose the latter, there are several artisans that can do an Airedale for us for the top of a trophy. Joanne Vohs is a long time breeder and has done many Airedale statues. <http://joannesinc.com/art.htm> Dick Briggs is also a well known breeder and artist. <http://www.briggsdale.net/sculpture-main.htm> And Jeanne Esmond saw artwork by Leslie Hutto, website <http://www.lhuttosculpture.com/>

We have decided to decline a kind offer from April and Todd Clyde to sponsor a new BOB trophy dedicated to Dave & Dee Leahy (LayDee Ayr) given the Leahys limited involvement with the Club.

President Burmaster is checking with the AKC on the trophy rules to see if we can offer a perpetual trophy that need not be retired.

At 8:20 PM, a motion to adjourn was made by Jeanne Edmond and it was seconded by Pam McKusick.

Respectfully filed by Ginger Robinson

### In Memory

Longtime Club member, Richard Noonan passed away September 4<sup>th</sup> at the age of 90. He was an Airedale aficionado and loved his girl Bridgette of Barbara Schneider's Serendipity Kennels. Pam McKusick writes that "He is remembered by family and friends as the consummate gentleman with a generous smile who was well loved by all.

# My History with the Airedale Quilting Bee

## Jeanne Esmond

The Airedale Quilting Bee has been in existence since 1999 when someone found a new Airedale sewing pattern. Out of that discovery and the subsequent online conversation, the Bee was born. This is the primary fund raising project for the Airedale Terrier Club of America's Rescue Committee.

The first quilt in 1999, *The Beginning*, was raffled at Montgomery, PA during the dog show (See all the quilts at <http://www.airedaleterriers.org/quilts/index.html>)

*Annette's House* in 2003 was the first ADT Quilting Bee quilt that I had seen. It was a memorial to an ATRA Rescue Coordinator who had passed away. It was fabulous! Every room in the house was filled with Airedales doing what Airedales do, in the fridge or the dirty laundry, running to the van for a ride, digging in the garden and eating the vegetables. There were also Airedales on the roof, in a hot air balloon and Airedales in the trees. A little farfetched perhaps, but not impossible! I was hooked. Joining the ADT Quilting Bee was a natural for me, uniting my two passions, Airedales and Quilting!

2004 Airelifted

My first quilt block was for the 2004 quilt, *Airelifted*. I drew and constructed the block myself. My inspiration was my first Airedale Roxie as a puppy, getting in her first Christmas tree, breaking the ornaments and pulling the lights and anything else she could get her teeth into off the tree!

That block was voted the best use of color for the lights that had the illusion of the internal glow of a Christmas tree light. (See the orange, purple and magenta bulbs.)

I lost my Roxie a year later and, with her, my enthusiasm for the quilt project. I skipped a year but found inspiration in *Friends*.

My newly adopted Airedale, Sandy loved my mother's green parakeet. He would go to the cage and try to touch the green budgie. Magically, the parakeet was not afraid of him. The bird would approach him and they actually rubbed noses. This was a natural for *Friends*.

Again I drew my own pattern and constructed the block! The group's artists mentored me and this block was much improved over the first.

In 2007, I contributed a block to the Week of the Airedale quilt *VersAiredaleity*. I constructed the *Hunting and Working* block; this time Linda Hobbit drew the block for me.

2008 brought *A Day in the Life of an Airedale*. Sandy and I had been together for 3 years. He had been a challenge for all that time. He came to me afraid of everything. I

2006 Friends

worked with him daily to free him from his terrors and finally, he was coming out of his shell and his personality blossomed!

One of the things that Sandy loved was turtles. I called them all Yertle. Sandy and I would walk in the woods, I would see Sandy take a scent in the air and I knew he had found a turtle. He would dive into the leaf litter and come up with a painted turtle ( I did not let him go after the snapping turtles in the ponds and puddles by the paths were we walked, for the obvious reasons.) I gave my ideas to Linda Hobbet and she drew Sandy and the Turtle.

By 2009, I was a two Airedale Family and my Fairey Tales block had to contain two Dales, Katiedo and Sandy.

Katie came into my life when Lou Swafford slipped and fell at his retirement complex while walking Katie, (not her fault). Lou along with his wife Vee (RB) had been our Rescue coordinators for many years; so when Pam McKusick asked my son to keep Katie until Lou recovered, h(w)e agreed. Little did we know the trouble we had gotten into! Katie was the Airedale from HxxL! She stayed with my son Chris for several months. During that time he lost three sets of roommates. Katie ate socks, dumped the trash and recycled the recycling in ways that Fairfax County never imagined! Chris asked me if I would keep her until he found more understanding fellows for roommates. I agreed and Katie came to live with Sandy and me.

2007 Vers-Airedale-ity

Katiedo taught Sandy Airedale Attitude. How to bark and keep his tail up. And how to get into Airedale trouble. Trouble was Katies middle name. She actually turned on the gas stove while counter surfing one day while I had Sandy at a training class. Until we lost her in 2012, the knobs could only be on the stove when I was there to supervise!!

Patty Eisenbraun was the artist for this block that I constructed. Jack and Jill fighting over a pail! Look Closely and you can see the mischief in Katiedos eyes. Im sure that she won the pail even though Sandy out weighed her by twenty pounds!

This was a very challenging block. Previously, I had worked with a larger design and fewer pieces. The complexity of the design forced me to stretch my hand applique skills and use techniques that I had only observed previously. (The dogs bodies were made using interfacing and fabric. The design was stitched on a sandwich of interfacing and fabric then turned to make the body. All other pieces were hand applique using needle turn.)

The following year , the ladies of the bee decided to adopt an ABC Theme. I choose the T=Tuckbutt run block. The block was hand applique and sent to the assembler. I guess it was a pretty good block, as it was stolen from the office of the quilt assembler and had to be remade.

In 2011, the theme was Airedale Garden Party. This one was a blast. There are so many funny and annoying things that Airedales can and do accomplish in our gardens.

I knew right away what I would make. We live in the Town of Herndon in the Historic section. There are many trees, birds and wild animals here roaming the neighborhood.

Sandy and I were out for an afternoon stroll when I noticed that he was rolling something around in his mouth. I told him to spit it out and out popped a little round ball. When it hit the ground, I realized it was a baby bird and it was still alive! Sandy wanted his prize back! I picked it up and put it on top of the big fence post of the house next door. The Black Capped Chick-a-dee chick was wet and scared and tried to get away. It thumped to the ground. Sandy lunged in to "save" it. I beat him to it and put it back on top of the fence post. During this time the mother Chick-a-dee was flying around our heads trying to protect her baby and put our eyes out! It took two or three more tries before the little birdie was dry enough to fly away with its mother. Was this a natural? Or what?

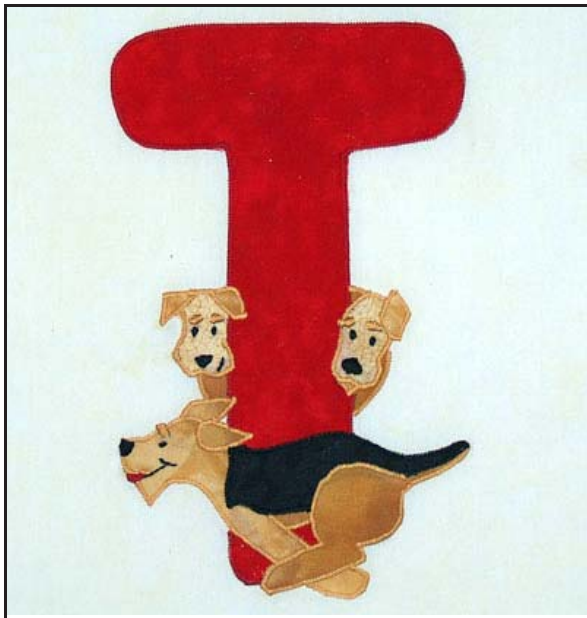

2008 A Day in the Life

2009 Fairey Tails

2010 T as in Tuckbuttrun

Jane Miller drew the block from my story. She had never seen Sandy, but don't you think it looks just like him?

2012 was a sad year for us; we lost Katido to heart disease and cancer. Airedales around Town would be my memorial to Katie. The last six months of her life were very difficult for all of us. She had a powerful will to live a but her body was rapidly failing her. She was unwilling to walk anywhere except to Telefix, the TV repair store a block away on the corner. Pat and Jay kept a HUGE box of dog biscuits for any dog who happened by. Katie remembered this and insisted on going there every day when I got home from work. Jay fed her biscuits until she looked like

she would explode. Sandy put on a lot of weight during this time. I truly think that this is what kept Katie going day to day; waiting to go to Telefix for her fix! This block honors Katie and Pat and Jay of Telefix for their welcoming, generous attitude toward my Katie.

This was another challenging block. Again I had to stretch my applique skills to complete the block on time. I was suffering from an acute attack of carpel tunnel syndrome and after hand appliqueing the woodwork on the store and the TV and sign, I was unable to finish by hand. I had taken a class that taught appliqueing from the back by machine. We used interfacing stabilizer with the design traced on the back, so I used that as my sewing line layering the fabric on the front. The result was very satisfactory

The gazebo resides a few block from my house. It is a lovely peaceful place to stop and smell the roses. This was my first block completed for this quilt. I was appliqued completely by hand. The photos show the blocks during construction and the completed quilt

The quilting on this year's quilt is lovely. The entire quilt is shown on *page 10*, along with the two squares I contributed. And if you look carefully at the right side border, you will see "It takes a village to raise and Airedale" sewn in thread.
