I, the undersigned, hereby request that the Mayor and Council consider my request to park a mobile home within the City Limits. I realize that residential zones prohibit mobile homes; however, if this request is approved, I understand that the permit will be of a temporary nature and that if and when trailer parks are available, I will relocate my mobile home in the park. I further understand that if additions or improvements are made to the mobile home, and later, because of the temporary nature of this permit, the mobile home has to be moved, such additions or improvements are done so at the owner's risk. I also understand that this application must be approved by the Governing Body before utilities are installed and/or connected and that approval of a percolation test by the Health Department does not automatically carry approval to connect utilities, but that this will be accomplished only after septic tank and field lines, where applicable, have met Health Department specifications.
