

Funeral Filming Service

We offer a discreet Funeral Filming Service to families throughout the North of England.

There are many reasons why our Funeral Filming Service is requested. For some it can be a valuable part of the grieving process while others ask us to record the ceremony for members of the family who are unable to attend due to living overseas. Some people want to record the service as part of the celebration of that person's life and accomplishments, focusing on the personal memories and stories of a loved one that are shared. A funeral video is a wonderful way of capturing the shared memories of a loved one so they can be cherished for ever. Whatever the reason we can provide you with a way of keeping and protecting those memories forever on DVD.

We can film as much or as little of the funeral as you prefer. We have much experience filming funerals and are conversant with the etiquette and procedure.

We are available at short notice and can take instruction from a Family representative or Funeral Director.

So please give me a call if you have any further questions on 0750 6211222. I hope I can be of service,

Malcolm Singleton
