

HEBREW WORDS, "ET" THE BUILDING BLOCKS OF THE UNIVERSE FREQUENCIES AND DYNAMICS OF SOUND

"ET"

In the following teaching I will reveal that Adonai established His "means of creation" in the very first verse of our Good Book. **The building blocks of the Universe and everything in it are found in Yahveh's Hebrew language.** You will find this hidden message in one Hebrew word "et", found in the very first verse in Genesis.

The Hebrew language is the first language, created by Yahveh and spoken to Moses. There are 22 letters and 5 final letters in the Hebrew alphabet. The universe is built of these 22 letters. Every letter is like a still picture. You connect the still pictures together as in a slide show and you end up with a moving picture. The Word comes alive! That is why it is commonly referred to as "The Living Word". No other language has this capability. Every letter has a message built in to it. Every letter has a prophetic significance, a number, and a picture. **Ps. 33:9 For He spoke, and it was done; He commanded, and it stood fast.** **Col. 1:16-17 because in connection with him were created all things — in heaven and on earth, visible and invisible, whether thrones, lordships, rulers or authorities — they have all been created through him and for him. 17 He existed before all things, and he holds everything together".**

Name	Pictograph	Meaning	Name	Pictograph	Meaning
Aleph		Ox / strength / leader	Lamed		Staff / goad / control / "toward"
Bet		House / "in"	Mem		Water / chaos
Gimmel		Foot / camel / pride	Nun		Seed / fish / activity / life
Dalet		Tent door / pathway	Samekh		Hand on staff / support / prop
Hey		Lo! Behold! "The"	Ayin		Eye / to see / experience
Vav		Nail / peg / add / "And"	Pey		Mouth / word / speak
Zayin		Plow / weapon / cut off	Tsade		Man on side / desire / need
Chet		Tent wall / fence / separation	Qof		Sun on horizon / behind
Tet		Basket / snake / surround	Resh		Head / person / first
Yod		Arm and hand / work / deed	Shin		Eat / consume / destroy
Kaf		Palm of hand / to open	Tav		Mark / sign / covenant

Everything that happens in the universe happens because of the 22 letters of the Hebrew alphabet. Every letter in the Hebrew alphabet has a significant meaning for our spiritual journey, from its beginning to the end. As you learn about the Hebrew alphabet you will see your personal spiritual journey from beginning to end in the letters. Your ultimate spiritual walk is to go from aleph to tav in your spiritual experience. Each letter represents a part of that journey. If something wrong is going on in your spiritual journey, you can see where you are in your journey by realizing which Hebrew letter you stuck on. When you see which letter you stuck on you can see the opposition (antithesis..a contrast or opposition between two things) and figure out how to move to the next letter of the journey and keep heading for tav.

When we are reading the bible in english it is like we are talking to a third person, trying to make sense of the original Hebrew. Without going back to the original language it is very hard to make sense. The fact is, things get lost in translation.

You cannot pick up your bible and read it like you would a newspaper. **The bible is NOT just meant to be read, it is meant to be studied** (2Tim. 2:15 KJV). You do not study a newspaper, but you study the bible. When you study His Word, His letters in Hebrew, you are studying Him. It can be compared to looking into the eyes of the woman you love when she is talking about something very important. You can't help but focus on her eyes and her body language because you love her. Every word, movement, nod, gesture, (all body language) becomes very important, tied together with the words she is speaking. Yah has made it possible for us to get something out of simply reading the bible, but it's not designed to be that way. He wants to get to know you. You cannot get to know the depth of the Living Yah completely and with full understanding without talking to Him in His language. You cannot truly know what He means without knowing His Word.

The ruach is represented in the bible as the white background of every page. The black letters mean nothing without the contrast of the ruach. If you remove the ruach from the black letters you have nothing, it's void, nothing but blackness. Remember in the beginning was the word, everything was black, void, there was no contrast. The earth was formless and void.

All languages change as they go. Hebrew is the only language that has never changed. The symbols for the letters may have changed, but not the words and word roots themselves. Hebrew words are anchored in root words so no changes can ever take place. The grammatical structure of Hebrew is made so it contains any and every word that will ever be needed till the end of time. All other languages are made of a series of random agreements whereas Hebrew has a universal system of expressing concepts. When you express these things in Hebrew the sound of the words is called Nikood.

Now that I have introduced the building blocks of the Universe let's look at the first verse in Genesis (B'Resheet), and see something beautiful.

Gen. 1:1 "In the beginning Yahveh Elohim created (created.."et"..brought forth..revealed something that was hidden..like a child hidden in the womb) the heavens and the earth."

In Hebrew this actually reads like this. **Gen. 1:1 "bereshit bara elohim; et hasha-mayim ve'et ha'arets.**

In the beginning Yahveh Elohim **created** ("et"). Et is untranslatable and means "the direct

object is next". In other-wards, pay close attention, the next word or phrase is very important, it is the focus. It is the direct object of the sentence. Right before "heaven and the earth" we see the two letter word "et". **In Hebrew "et" is "aleph tav". It is the first letter and the last letter of the Hebrew alphabet. It is the beginning and the end. He created the alphabet. He created the alphabet which was the vessel (vehicle) used to create all things. His Word (alphabet) is**

ALIVE, that's why it is so often called the Living Word. With it and in it all things were created. He brought forth His Words. I am the aleph tav, I am the aleph tav, the untranslatable seen in Hebrew over seven thousand times in scripture (tenakh). I am the Word, I came forth from Genesis to Revelation, I am the one John spoke of in John 1:1. I am the one who was, who is, and who is to come. I am the "ET". Before you create you must have words. In the beginning He brought forth the alphabet/words needed to create all things.

Et can also mean "plow shear", the point on the plow that goes deep inside the earth. It is connected to zayin the plow, the ruach. Et is getting ready to bring forth life from the earth. If you look at the story of Jacob and Esau you will find the word et every time before his birthright is transferred to Jacob. This can only be seen in the original Hebrew. The covenant was with Esau until he despised, (like Judas and Haman), gave up his birthright for a bowl of soup. At that moment the covenant (et), was transferred to Jacob.

The word et by itself is seen in scripture three times. It precedes a direct object. It points and connects and says I am pointing to something, pay close attention.

We have a thematic connection here to what was spoken in Rev. 1:8, let's have a look.

Rev. 1:8 "I am the Alpha and the Omega," says Yahveh, "who is and who was and who is to

come, the Almighty.”

We see a little better translation in the CJB as follows.

Rev. 1:8 *“I am the ‘A’ and the ‘Z,’” says ADONAI, Elohim of heaven’s armies, the One who is, who was and who is coming.* (CJB)

Isa. 44:6 *“Thus says Yahveh, the King of Israel, And his Redeemer, Yeshua of hosts: ‘I am the first and I am the last, And there is no Elohim besides Me’.”*

Both Yahveh and Yeshua are the aleph and tav, *“who is and who was and who is to come, the Almighty.”* They are the beginning and the end, the Great "I am". Yeshua came as the alphabet/word/torah in the flesh (John 1:1, Gen. 1:1). In the beginning Yah created the "leader", "the power", and the "strength" of the covenant (torah) which is the Word of Yah. When Yeshua says He is the aleph/tav, He is saying He is the leader, the strength of the covenant. Many people don't get this revelation because they don't even read the tenakh where the Mt. Sinai covenant is found.

The technical (grammatical) definition of et is: the word et in the middle of a Hebrew sentence is telling the reader that the action of the verb is not on the subject, which is the normal way of doing things in a sentence. It is saying that the action of the verb is on the predicate object (the part of a sentence or clause containing a verb and stating something about the subject). It is in other-wards pointing to the object for concern. Pay attention to the subject next is what it is saying. The sages say that in the places where et is used it is indeed always talking about a person or a thing the aleph tav represents. example: Zech. 10: "they look upon Him who they pierced". Literally it says "they will look upon Him aleph tav who they pierced". It infers by the structure of the sentence that aleph tav represents someone or something. There are fourteen main scriptures where this et occurs as such. We see Yeshua confirming this understanding in Rev. 1:8 when He says He is the aleph and tav. He answers that question the sages had difficulty with in the tenakh, directly.

Gematria and meaning of the number 1:

The gematria of alef is one. One cannot be divided. One represents the beginning, the unity of Abba, completeness, which we see in the Shema (Deut. 6:4).

When you add up the numerical value of the word aleph: aleph, lamed, pey, you get (1+30+80=111).

The meaning of the number 1 is:

The number of Yahveh (Shema).

Unity, echad, one cannot be divided.

The beginning. Everything must begin somewhere, sometime. The beginning of all numbers is one. One is unique. It is by itself, totally unique.

It represents completeness. If you were the only person on earth you would be considered perfect, one. When there is nothing to compare to, you are perfect. That's why Yah is always considered number one. There is none before Him.

Words that start or include aleph:

1) "Elohim", Yah: **Gen. 1:1** *In the beginning GOD created the heavens and the earth* The word translated here as God, and about 4000 other places, is "Elohim/Yahveh". Elohim is (from right to left) is aleph, lamed, hey, yod and mem.

Aleph is pictured as an ox, it means "strong leader".

Lamed pictures a shepherds staff, and it means "the one who has control". "The one who speaks with authority".

Hey signifies a "man with his hands lifted up to heaven". Heaven is where revelation comes from. It means "reveal".

Yod means "to make something", "a mighty deed",

Mem is pictured as "water".

Elohim means: "The strong leader" (Yah the Father), "The one who speaks with authority", "The revelator, the one who reveals", "The one who does the mighty work with His hands that separates", "The one who separates the waters from the waters".

2) "av", Father, source

- 3) "echad", one, unity
- 4) "ahavah", love
- 5) "El", Yahveh, God, deity
- 6) "aur", light
- 7) "emet", truth
- 8) "ani", I, I am
- 9) "Adam", Adam, first man
- 10) "Avraham", Abraham, Father of the multitude
- 11) "Aben", stone. If you combine the letter "av" (Father) with "ben" (son) you get stone, foundation or rock.
- 12) "aloof" is a derivative of alef.
- 13) "fire" which points us to "shin", the 21st letter.

The words of the torah are the building blocks of the universe, the VOICE of Yah.

The torah is not a theological issue. The word of Yah created all things. That's a fact. Everything we say and everything we do affects everything else in the universe.

Words are important. Words mean things. Words are the building blocks of creation. Yah spoke the Word at the time of creation and it came into existence. Words can bless you or curse you. Words can deceive people or words can reveal the truth to people so they can be set free from the bondage of the world we live in. Words can destroy things or create things. Yah's words are the only words that can create. Words are very very powerful, that's why James says be careful what comes out of our mouth for it can bless or curse those who receive it. Yah is in the business of restoring all things and the devil is in the business of corrupting all things.

Yah spoke the word and the universe was created just as it is explained in Genesis. The basic concept of blessings and curses rests upon the spoken word being a vessel to make the words come into being. That's why we are told in the end that we will give an account for every word spoken.

James 3:10 *"from the same mouth come [both] blessing and cursing. My brethren, these things ought not to be this way."*

Frequencies of sound

Many scientists say that the universe was brought into existence by the energized vibrations of sound. They say that sound is what sustains the universe. What they don't realize is that the sound

they are talking about is the Hebrew sound of the words of the torah, known as the "Living Word".

"The current research of quantum physics now understands that the universe we live in was brought into existence by the energized vibrations of sound! "Whatever created the universe, sustains the universe."

Newtons laws of motion. Newtons laws are in perfect harmony with the bible. These are the laws of motion. Everything in the universe is an affect, and everything has a cause. Isaac Newton was a brilliant scientist and theologian. His explanation was correct.

Dynamics of sound

According to the Science Magazine: quote “All the subatomic particles in the universe arise from different vibrating frequencies, a universe in symphony like violins playing different notes. Music is at the very base of all space, time and matter”. They are saying that everything in the universe is vibrating frequencies and sound. The world was created by Yah like a huge symphony and in the beginning Yah tuned every instrument exactly the way it was supposed to be. He said “let them multiple after each kind”. Don’t mess with creation, it is good. He basically said He didn’t need anyone to try to improve on it.

When man decides what he wants to do to the earth and does it, it upsets the make-up of the earth. Men do the imagination of their own hearts and the earth pays the price. The earth re-acts in weird ways whether it be hurricanes, volcanoes, tsunamis, tornadoes or what have you. The world says that’s mother nature doing her thing or they call it an act of God. The idea of the earth rejecting what is being done to it is on the right track. The secular world, which includes the pagan so-called christian church, who have no understanding of God, all of a sudden blame God for the earths negative reactions.

Deut. 29:29 *“The secret things belong to Yahveh our Elohim, but the things revealed belong to us and to our sons forever, that we may observe all the words of this law.”* One of the ideas that many refuse to acknowledge is the fact that the torah is the secret that holds the universe together. The torah is the secret that holds families together. The torah holds your body together. The torah holds cells and atoms together. It is what holds everything in the universe together. Again, that’s why the scriptures say the Word of Yah (His torah) is active and alive and able to divide things like a two edged sword. When people turn away from the torah all the strange things begin to happen in the world. This is what we have witnessed for centuries. The world plummets into a state of upheaval and corruption that often manifests itself as natural disasters. Many blame this on the devil, when in fact it is simply happening because of the world not following torah, Yah’s universal instructions for a balanced life for all humanity and the planet we live on.

Mankind manipulates and changes things just because they are able to do so, causing disruption and corruption in the universe. They began mixing and mutating things, which disrupts the entire pattern of things in the universe. When you mess with the instruments you loose the perfect sound of that beautiful symphony.

Sky and Telescope Magazine says: quote “As if by a chain our planet’s surface is connected intimately to the space environment”. What happens on the surface of earth directly affects everything else in space because it is surrounded by an electromagnetic field.

A P Dubrow, a well respected geophysicist says: quote ” All biological systems depend upon the electromagnetic field surrounding the earth for cellular communication”. He is confirming that our

cells communicate with each other. That is the reason our portable phones are called cell phones.

Restoration of the word

Yah is restoring a pure language in these latter days. He is establishing His people with the guidance of the spirit of Elijah to repair the breaches that mankind has established. He is revealing His Living Word to the remnant all over the world who love Him and keep His commandments. He

has opened the seals of Daniel 12:4, and knowledge has become available for all who yearn for the truth. The Hebrew words that Yah used to create everything are once again being understood and used by His true bride, to restore all things in preparation for the end of days.

Isa. 58:12 *“And those from among you will rebuild the ancient ruins; You will raise up the age-old foundations; And you will be called the repairer of the breach, The restorer of the streets in which to dwell”*. The repairers of the breach are the people of His newly established Hebraic Roots movement. I believe that is why Yah is restoring the Hebrew language so people can see what the Word really says, rather than what their anti-Semitic pastors (CEO’S) have been telling them.

The things we say and the things we do affect everything around us and in the universe as a whole. Man needs to restore the torah in order for the universe and everything in it to get back to its original perfect order. Man’s choice has been to corrupt it all in the name of prosperity and greed for money; and the control, domination and manipulation of that money. The Hebraic roots community is part of Yah’s plan to restore what man has distorted on earth and in the universe in the latter days.

Gen. 18:19 *“For I have chosen him, in order that he may command his children and his household after him to keep the way of Yahveh by doing righteousness and justice; in order that Yahveh may bring upon Abraham what He has spoken about him.”* Our keeping of His ways brings upon Abraham and all his descendants the blessings of a perfectly balanced universe.

Gen. 6:5 *“Then Yahveh saw that the wickedness of man was great on the earth, and that every intent of the thoughts of his heart was only evil continually.”* Yah revealed all the bad things that would happen in the end of days, in the beginning, as the prophet Isaiah explained seven times.

We have a lot of people trying to figure out how the prophesies of old will play out in these last days. What many of these eschatologists don’t seem to understand is that Yah told us to go back to the beginning to understand what will happen in the end. Most of these people go back to the prophets (Isaiah, Jeremiah, Daniel, Ezekiel), in the middle of the book, rather than the beginning in Genesis where the secrets are also made available.

In Daniels dream the words that were sealed up until the end of time are now made available for all who search for the truth of the original Hebrew scriptures. Now the seals have been broken and everyone has the ability to study and learn the fulness of the real meaning of torah. Now, if you didn’t already know, you will understand why those who are truly searching for the Truth call themselves the Hebraic Roots movement.

Education and experts

Today people think education makes people smart. Studies now show that the higher people get into education, the dumber they get. It may make them smart in their specific field of expertise, but they become dumber in every other way (morals, ethics, geography, history, writing, reading, speaking, and arithmetic). They lose their ability to use common sense and logic because of their higher education. It was found that they also got more immoral. Their ability to do the most simple things and use common sense almost disappeared. They found that they could no longer spell properly anymore because of all the social media type short forms of real meanings and words. It was found that the home schooled children did not lose these natural abilities of common sense and moral values.

We are told that the experts are smart. That is a lie from the pit of hell. They have progressively become dumber because they look at science and theories as facts. Just because they call themselves experts doesn’t mean they understand anything more than anyone with simple moral values and common sense, those who have a home a family and a piece of land.

A comical note

Those of us familiar with the SUNday type christian church altar calls remember when the pastor tells those who have come forward and accepted his Jesus to go home and read the bible. They do usually suggest these new babes go home and read the bible, but they do it totally wrong.

Where do those pastors suggest to start reading?

They almost always tell the babes to start in the book of John which is not where they should be starting. I think Yah knew this would be the case many years ago and that is why in the first verse

of John He had the apostle John write the following. **John 1:1-2** ***“In the beginning was the Word, and the Word was with Yah, and the Word was Yah.” 2 He was in the beginning with Yah.*** It seems that Yah knew these pastors would do things like that many years before they ever started doing it.

Have you ever considered that the reason Yah calls us His children is maybe because we don't understand His Living Word well enough to be called adults?
