

2021 Transportation Priority Projects

The McHenry County Council of Governments is a cohesive network of governmental bodies who seek to foster cooperation between all levels of government.

IL 47 from IL 120 to Charles Road in Woodstock

This important corridor is vital to commerce and economic development not only in McHenry County, but throughout the region.

Proposed Metra Woodstock Yard Site

This regionally supported project will ultimately increase service and ridership on the second busiest commuter rail line in the Chicago region. This project has received support at the local, county and federal level.

IL 31 from IL 120 in McHenry to IL 176 in Crystal Lake

This corridor will help move commuters and commerce between McHenry and Crystal Lake with connections to points south such as I-90 and points north to Wisconsin.

Commuter Rail Service to Huntley and Rockford

As there is very little public transportation in McHenry County, this long-awaited project would help connect the City of Chicago with the City of Rockford with stops in the Village of Huntley and the City of Belvidere.

Randall Road from Acorn Ln./Polaris Dr. to Ackman Road

The Randall Road corridor is the busiest commercial corridor in McHenry County. This project will ease congestion (rush hour and weekend) and improve economic development in the Village of Lake in the Hills and City of Crystal Lake – the most populated section of McHenry County.

East McHenry Bypass

This project will ease congestion at IL 120 and Chapel Hill Road/River Road and the bottleneck at IL 120 and IL 31 while providing commuters easier access to the City of McHenry, Village of Johnsburg, Village of Ringwood and points north.

IL 47 from Reed Road in Huntley to US 14 in Woodstock

This project includes the IL 176 and IL 47 intersection improvement project and is vital to the flow of commerce between I-90, the Village of Huntley, the City of Woodstock and points north.

IL 120 at Chapel Hill Road Intersection Improvement

In connection with the East McHenry Bypass, this intersection improvement project will ease congestion at IL 120 and Chapel Hill Road by improving the flow of traffic east and west. Traffic on two lane Chapel Hill Road and River Road is increasingly congested at rush hour proving difficult to travel north and south as well.
