

There's Something for Everyone at Blue River Resort & Hot Springs

Looking for the perfect family vacation destination is no easy task. The more people to please, the harder it gets. Blue River Resort & Hot Springs in the beautiful Costa Rica offers you the perfect solution. Imagine a 750 square foot rustic luxury cabaña that features two queen beds, enough space for a family of 5 or for 4 adults to fit comfortably. But the comfort doesn't stop there. Every cabaña is equipped with amenities, including air conditioning, a minibar, WiFi, satellite TV, a coffee maker, and available roll-away beds. As if that isn't enough, the cabañas overlook tranquil views of the surrounding Rincon de la Vieja volcano and pools. You may find your teenager ignoring the satellite TV in favor of lying out on a hammock on the large terraces while the sunset stretches over the rolling mountains, gardens, volcano, and seemingly-everlasting jungle. Blue River Resort & Hot Springs makes sure your stay is worry-free, comfortable and relaxing.

If your family manages to leave the luxury of your private cabaña, the real adventures can begin. After enjoying a complementary full breakfast, you can set out on an eco-adventure tour with the help of Blue River Resort & Hot Springs' shuttle service, which offers transportation to and from most locations in Costa Rica.

For the real adrenaline junkies in your group, they can experience Costa Rica in a way they'll never forget: the zip line. Enjoy viewing rainforest from atop while flying down a zip line. It guarantees one-of-kind views and over an hour's worth of pure joy. If that's not enough to get their blood rushing, the water tubing adventure through the winding Rio Azul or Rio Negro rivers is a blast of fun for the whole family. For more than two hours, you'll be emerged in the lush rainforest while steering through canyons and past thick greenery.

The less dangerously-inclined can experience Costa Rica on horseback, riding along the blue volcanic river, Rio Penjamos; and for those who like to stand on their own two feet: take a day hike through Rincón de la Vieja Volcano, Costa Rica's most diverse ecological park, where you'll find an immense assortment of plants and animals native to the region. Boasting beautiful waterfalls, fantastic panoramic views, soothing hot springs, boiling mud pits, a fresh water volcanic lagoon, picnic areas and long-winding trails, this national park is the perfect way to get to know the natural wonders of Costa Rica.

After a long day of adventuring, and complementary shuttle service back to the resort, you can visit the Blue River Spa and relax with a spa treatment or package that caters to your particular needs.

Blue River Resort & Hot Springs has thought of everything so you don't have to. Enjoy the wonders of nature, the once-in-a-lifetime adventures and the relaxing locales of Costa Rica, and do so without any hassle or stress. Let Blue River Resort & Hot Springs give you and your family the perfect vacation. Visit www.blueriverresort.com for more information.
