Q & A

What's the difference between a diploma and NVQ qualification? The really depends on what your looking to do, if your looking to treat friends, go mobile or run your business from home then we'd recommend a diploma by the Beauty Guild. However, if you were looking to work in a Salon or Spa most would require you to have an NVQ qualification.

Are we required to purchase a kit before attending the course? No, all the material is provided for you on the day. However, we do sell beauty kits be reserved for you on the day of your course. This is very popular amongst students.

Where does the training take place? The training all other beauty courses are taken at our Academy in West Malling
