EXTENSION

To the buyers:

Welcome to the 2021 Jamestown Ram Sale!

The North Dakota Lamb and Wool Producers Association has made every attempt to ensure a high-quality offering of purebred and commercial rams.

North Dakota Lamb & Wool
Producers Association

1. All rams have been sifted by a committee of three breeders and a veterinarian. Rams have been Elisa tested within 30 days of sale or are from current Brucella Ovis-free flocks.
2. All rams must originate from flocks that have been inspected and found free of foot rot.
3. Minimum weight and scrotal circumference:
 - Yearlings – 220 pounds and 32 centimeters
 - Lambs – 120 pounds and 30 centimeters
4. All animals must be bred and owned by the seller.
5. Registration papers and the cost of transfer are strictly between the buyer and seller.
6. All rams will be guaranteed breeders (ram lambs are not subject to guarantee in year of purchase). The guarantee is between the buyer and seller.
7. Health papers will be available for out-of-state buyers.
8. The catalog is arranged in sale order, with rams first, followed by ewe entries.
9. Phone bids will be accepted by the Sale Committee and NDWLPA board members. See numbers below.

Please enjoy viewing this year's consignments and visiting with your fellow sheep producers.

Lot 15 Flock No. 726B-QR Fall ram lamb 10/7/20 Single

These rams come out of ewes that are naturally bred for fall lambing. We don't use CIDRs or shots to get them to cycle.

The lambs are born and raised with as little assistance as possible. They have access to creep feed until weaning but are hand fed and on limited grain after weaning to grow them slow. They gained a consistent .75 pound a day all the way from birth to 120 days.

Watch our Facebook page – A & L Ranch – for more information and pictures.

We have been raising Suffolk sheep for more than 40 years. Raising sheep not only for the purebred industry and also selling to commercial sheep breeders. Our sheep enjoy success in the show ring but many repeat buyers come back to get rams to improve their commercial flocks.

The last few years, we started to get into the retail meat business with much success, so we feel our sheep fulfill the needs of both ends of the sheep industry.

These three rams are half SAMM (South African Meat Merino). The SAMMs have been a good complement to our Dorsets. They have added some frame for those customers who want it without affecting performance and production of our ewes. All of these ram lambs were gaining more than 1 pound a day at 120 days.
