Hello all,

Woke up to this email this morning. Thought I would share it. Also, as of Monday, the checking account had 55 grand, the savings a bit over 4 grand. I began to move this year's dues to the savings account just to keep them separate. There are still 3 names on the checking account as of yesterday, Richard, Dennis, and Rachel.

Also, Craig Masolo sent another email reminder for the road bid. I informed him that the next meeting was May 7th.

Take care all. Let me know if I can assist.

regards

Louie

Hello Mark,

i am forwarding the revised quote for the cattle guards. The sales rep did not recommend a

center footing. Instead, he quoted heavy duty guards. This will be for 2 ten foot grids, placed side by side, at each crossing.

Please let me know if you approve and if I should place the order.

Thank you,

Sharon

Attached is the requested quote, with the additional 8 foot bases. I do not recommend putting additional bases in the middle of the pit. Because of this I've offered the heavy duty guard, which can handle a 160,000 pound logging truck.

Good Morning Adam,

I am attaching the most recent quote for the cattle guards that you sent to Louis Caissey. I've deleted the lines that listed the quote for the 16' grid and sill.

The Developer, Mark Pieloch, has asked that you provide a revised quote for four 10 foot grids, four wings, eight 23" concrete sills with an 11" step and then add enough precast concrete footings that will connect the sills in order to provide additional support. I expect that will be about 10 footings.

I will call you shortly to go over this in more detail.

Best,

Good Morning Tim,

I am attaching a copy of an email that you sent to Louis Caissey the end of last year with a quote for cattle guards. The new Developer of the subdivisions, Mark Pieloch, has requested that I reach out to your company to get an updated quote and if we placed an order this week, how long before it would be delivered?

I will call you in a bit to visit over the phone.
