Request for Release of Information

Andrew Murray, Esq.  
Supervising County Attorney  
Anne Arundel County Office of Law  
2660 Riva Road  
Annapolis Maryland 21401

Dear Mr. Murray:

This letter is in response to a letter received from Chief Timothy Altomare dated October 20, 2015 in reference to the death investigation of Katherine Morris. In this letter Chief Altomare makes the following statement. " Homicide detectives and forensic pathologists with extensive training, education and many years of experience considered all other possibilities, but the evidence overwhelmingly brings us to this conclusion". While my family is appreciative of finally receiving a written response to our many inquiries (which date back to 2013 with no response), we continue to have concerns over matters related to the death of Katherine Morris. Therefore as a follow up to the letter please consider this a request from Marguerite R. Morris per the Freedom of Information Act for the following:

1. The names and contact information of every expert consulted to include the names of the forensic pathologist consulted.
2. The names, credentials and contact information of any experts that were consulted outside of the Anne Arundel County Police Department, to include cell phone tower experts.
3. Meeting times, places, and written minutes from those and any other consultations.
4. Please provide a copy of the exact information provided to those experts for their review.
5. Please provide copies of internal memos, emails and any other correspondence related to this matter and between all parties involved.
6. A response to whether or not any of the alleged list of persons of interest provided to the police department were ever contacted, alibied and/or questioned in any manner.
7. What internal and external phone records, data analysis were performed/utilized, or requested in relationship to this case
8. Any and all copies of subpoenas for records or documents issued in this investigation.

Thank you in advance for your assistance.

Sincerely

Marguerite R. Morris
