

Evaluation of Valley Truss Connection Design
For Wind Uplift Resistance

Sun City - Hilton Head
Bluffton, South Carolina

August 17, 2010

John F Mann, PE - 28070
Structural Support
1212 Main Street
Belmar NJ 07719

Certificate of Authorization - 4216

Table Of Contents

<u>Introduction</u>	1
Qualifications	1
Use Of Report	1
Initial Distribution	1
<u>Summary Of Conclusions</u>	2
Key Conclusions	2
Determination of Design Capacity	2
Basic Requirements Of Design	3
Calculated Design Capacity Of Nail & Screw Connections	3
Evaluation Of Engineer Documents	4
Truswal Valley Truss Connection Drawing	5
Design Solution	5
Existing Construction	5
Recommendations	6
<u>Background Information</u>	7
Initial Awareness	7
Previous Comments	7
<u>Conditions & Conventions Of Report</u>	8
Limits Of Evaluation	8
Basis Of Evaluation	8
Design Standards & References	9
Information Not Available	9
Arrangement & Conventions Of Report	9
Terms & Names Used In Report	10
<u>Basic Scope & Description Of Structural Evaluation</u>	11
Valley Trusses	11
Wind Uplift	11
Structural Design Requirements	11
Expectations & Understanding Of Design and Construction	12
Structural Analysis	13
