Grooming

TRANSPORTING YOUR DOG SAFELY:

You are required use a harness & SEATBELT LEASH IN CAR
We offer these items in our boutique- harness can be fitted on pick up. Just a reminder that GROOMING clients should come into office/boutique to drop off. Feel free to stay to wait for your dog on the front lawn by the pond.

***. IF YOU ARE LATE - you have MISSED your appointment and you will have to RESCHEDULE *** Please be on time and respect everyone's allotted appointment. PEOPLE WHO DO NOT FOLLOW OUR RULES WILL BE ASKED TO LEAVE.

GROOMING EDUCATION:

It's very important that you read through this info so that you are prepared and that you've done the educational element we require. Please be sure to brush your puppy 1 - 3 times weekly to prevent coat matting and trim nails regularly. To learn good grooming table behaviour your puppy needs to see your groomer within a month of going home. READ ENTIRE WEBSITE: It's very important to do your research and understand the commitment and the work involved and how to raise/train your puppy properly.

Karen our groomer talks about slicker brushes, rakes and combs as well as products suggested in her GROOMING video on YouTube.

PUPPY CHANGES TO EXPECT

PUPPY COAT SHEDDING-

Most puppies lose their puppy coat when they're somewhere around 3 - 7 months old, depending on size, breed and coat type. This sort of puppy hair loss can be more extreme in some breeds than others, and may look very 'patchy' for a time.

ADULT TEETH COME IN TIME-

PUPPY TEETH MILK BEGIN FALLING OUT AT 8 WEEKS - BY 12 WEEKS ADULT TEETH BEGIN COMING IN -BY 6 MONTHS ALL 42 TEETH WILL BE PRESENT.

BRUSH TEETH REGULARLY AND GIVE BONES TO HELP WITH PLAQUE BUILD UP. DENTAL KITS AVAILABLE IN OUR BOUTIQUE.

EAR INFECTIONS ARE COMMON

It's important to understand puppies commonly have yeast blooms during stressful times such as going to a new home and leaving their mother and siblings.

Far too often, when dogs are diagnosed with allergies, they are actually suffering from an overgrowth of yeast.

When your pet's body is in balance, yeast is an excellent source of beta-glucan, which is a powerful antioxidant that helps ward off skin damage, repair skin damage and protect your skin.

But, when your pet's body is out of balance, the problems begin... also helps prevent cancer in future by allowing natural hormone to occur.

BATHING SWIMMING GROOMING

Brush your dog regularly to prevent matting. One to 3 times a week. Professional Grooming at every 6-8 weeks; Nails should be trimmed monthly; Regular brushing of hair is a must to avoid tangles (3-4 times weekly); Bathing with water only anytime; Dog soap- no more than once per week. Teach your puppy to swim in the bathtub right away. If your dog swims in a salt water pool you must rinse the dog afterwards as salt is not good for dogs.

FLEAS & TICKS

Diatomaceous Earth (DE) on the skin weekly helps keep fleas and ticks off your dog. Also use a NATURAL pest spray when going for walks. For internal parasites - DE ¼ teaspoon in a tablespoon of pumpkin weekly. YOU NEED A TICK PULLER!

PAW WAX

USED ON PAWS – protects from contaminants such as road salt can be avoided by using a NATURAL PAW WAX. It's a barrier to prevent salt being absorbed into the body.

PURCHASING DOG ACCESSORIES:

Our Lakewood Pet Boutique is online and also a boutique at the ranch for your shopping pleasure! We have all of the products you will need for a puppy or dog. You can preorder in the boutique and pick up when you come to the ranch.

lakewoodpetboutique.com We offer a starter package containing safe holistic products, treats and doggies accessories The package contains: A year supply; handmade on the ranch; all natural products.

- we can ship or you can pick up - order on our boutique site.

<https://www.lakewoodpetboutique.com>

We focus on **green products-eco /environmentally friendly/ all natural/recycled /North American made products.**

We offer everything you will need for your puppy - toys; crates; seat belts leash; harness and all of the products you will need for a puppy. You will need soft toys - for only when you are with your pup. They can be shredded so they are a choking risk. You will need a sweater or coat; food bowls; toy bin; dental care; tick puller; grooming tools. A dog bed is needed for training. A play pen should be used to keep the puppy from roaming the house. Training treats can be bakery items or meat treats. Use a different treat for toilet rewards than treats for training "sit" or "stay" commands. You will need boredom busters like a KONG; puzzle balls or snuffle matts; lick matt. See article on website about boredom busters.

CALL US ANY TIME FOR QUESTIONS! 705 875 5195 Karen our groomer has a video to describe grooming practices and tools on YouTube
