

Physicians to Children, Inc.

April 26, 2021

Dear patients and caregivers,

It is with a mix of anticipation, excitement, and sorrow that I am announcing my retirement from Pediatric medicine as of August 1, 2021. It has been one of my life's greatest privileges and honors to have been entrusted with the care of so many children in the Roanoke Valley and the SML area for the past two dozen years. After devoting 30 years to the care and well-being of young people, it is time for me to begin a new chapter, but I will always cherish the years spent. I am confident that you and your children will be well cared for by the remaining providers and staff at Physicians to Children - the finest Pediatric practice in the region...of course, I am just a bit biased!

My Best to All,

Adam A Sarbin, MD

From the Staff of Physicians to Children, Inc:

Your insurance company will be notified that Dr. Sarbin is leaving Physicians to Children with a request that your child be reassigned to another primary care physician in the practice. If it is your desire to transfer care to a provider outside of Physicians to Children, please contact the Member Services Department of your insurance company to complete this request.

Medical records of Dr. Sarbin's patients will remain here in our clinic; however, if you would like to transfer your child's care, you may request that a copy of the records be sent to a new medical group. Please contact our Medical Records department to initiate this process.
