ES CONSTANCE

Looking for a high yielding mid maturity variety?

Looking to feed high proportion of maize in the ration?

Want plants to remain green?

YOU NEED Es CONSTANCE:

-  **New high yielding maturity group 8 variety**
-  **Excellent yields in National List Trials**
-  **High CWD enabling high maize inclusion in ration**
-  **Excellent cob maturity on green plants**

Grainseed Ltd

NEW

ES CONSTANCE

BIG YIELDS WITH MATURE COBS ON GREEN PLANTS

Cob Ripeness

Good cob maturity for Maturity Group giving the potential to achieve good yields.
Cob ripening days after Picker +10.

Maturity Group

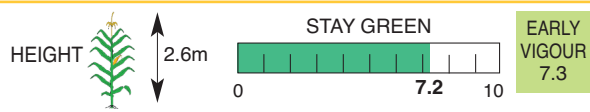

Perfect maturity for those growing on good maize soils. Large erect indeterminate cob producing high starch value.

Quality & Digestibility

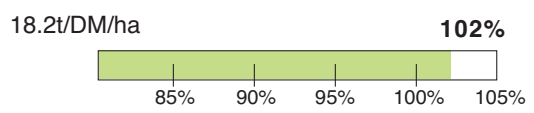

Mid-season variety offering lots of mature grain. Translating into excellent levels of ME and Starch to produce a silage to increase your meat, milk or gas yield.

Plant Description

Wide, semi-erect leaves on a tall plant. Good early vigour gets the variety off to the best start. Large cob with potential for increased number of rings of grain. Excellent resistance to eyespot.

Yield

Sow at 40,000 to 45,000 seeds per acre (99,000 to 111,000 seeds/ha) to maximise output. Excellent combination of yield and quality for those growing on good maize land.
