

The 7 Natural Laws of the Universe  
By Marcy Richards

The Law of Perpetual Transmutation-

- \* Energy moves into physical form.
- \* The images you hold in your mind most often materialize in results in your life.

The Law of Relativity-

- \* Nothing is good or bad, big or small... until you RELATE it to something.
- \* Practice relating your situation to something much worse and yours will always look good.

The Law of Vibration and Attraction-

- \* Everything vibrates, nothing rests.
- \* Conscious awareness of vibration is called feeling. Your thoughts control your paradigms and your vibration (which dictates what you attract).
- \* When you are not feeling good, become aware of what you are thinking, then think of something pleasant.

The Law of Polarity-

- \* Everything has an opposite: Hot - Cold ... Up - Down ... Good - Bad.
- \* Constantly look for the good in people and situations. When you find it, tell the person. People love compliments and the positive idea in your mind makes you feel good. Remember, good idea - good vibrations.

The Law of Rhythm-

- \* The tide goes out ... night follows day ... good times - bad times.
- \* When you are on a down swing, do not feel bad. Know the swing will change and things will get better. There are good times coming - think of them.

The Law of Cause and Effect-

- \* Whatever you send into the Universe comes back. Action -- re-action are equal and opposite.
- \* Say good things to everyone; treat everyone with total respect and it will all come back. Never worry about what you are going to get, just concentrate on what you can give.

The Law of Gender-

- \* Every seed has a gestation or incubation period. Ideas are spiritual seeds and will move into form or physical results.
- \* Your goals will manifest when the time is right. KNOW they will.

So ... why am I bringing these up?

Because YOU can utilize these Laws of Our Universe to bring UNTOLD wealth into your life; wealth in health, wealth in relationships (spiritual, family, personal, business), and financial wealth.

Wallace D. Wattles (the author of the book written in 1910 entitled *The Science of Getting Rich*) states "Getting rich is the result of doing things in a certain way." That is the largest truth I can share with any of my family and friends (this includes You, who are reading this). That statement, and these Laws have already done so much for me with their use value. I've experienced an enlightening, in the sense that I no longer dread debt. I no longer have astringed relationships with my family and friends that at one time I had. I no longer see life as being a "half empty glass" now it's "abundantly full".

I first learned about *The Secret* through my sister, back in February of this year, and caught a special on Oprah about it on my birthday that month. The show was very uplifting and had me researching the Teachers in the program, and beginning to read their books. After a few months I decided that this was undoubtedly for me. At the time of my learning and research my son and I had a rather strained relationship and we had not been close for over a year and a half; and through the power of Positive Thinking, and applying the Law of Vibration and Attraction to my life, we were able to rediscover and strengthen our relationship. We've now embarked on this journey together.

We are now on Myspace, Facebook and several other social networking sites, meeting like minded people who are either currently applying the Laws of the Universe to their lives, or are interested in learning how I (and my son) are utilizing these Laws in our daily lives. This site has already paid for its worth in gold with the genuine interest and relationships we are building here. We are Attracting people, and letting them Attract us. We are not spammers, we don't want to impose anywhere where we've not been asked. But imagine applying these Laws to your life, and how abundant things can be when approaching the same situations with such a different mindset. This is a truly mind encompassing, re-wiring of sorts, to put all your negative thoughts, emotions and energy to rest, and instead allowing you to control the positive thoughts, emotions and energy out into the world to start Attracting everything your heart desires.

By now most people have heard about *The Secret* and *The Law of Attraction*, but very few people KNOW them, and even fewer that are applying them. But I can honestly put out there, that this way of thinking and acting is the way to living the full, happy, abundant, wealthy life we all have undoubtedly dreamed of at some point or another. So ... don't you think it's about time You begin to realize everything You visualize?

Well ... what do I mean by that statement?

I mean that everything that You put out into this Universe, through the power of your thoughts and dreams and actions, can and will come to fruition, if given the time. I am most certainly NOT saying "you'll get rich if you wait for it". But what I am saying is, starting today, RIGHT NOW, start changing your outlook. Visualize sitting on the beach, or in the rain forest, and don't think "oh I don't have the time to take off" or "that takes too much money" instead, visualize and realize that sand can be in between your toes, that ocean can be lapping at your feet, with your eyes closed, and the sound of the waves crashing. Doesn't that just wet your lips? I know it does mine (I personally LOVE the ocean and the beach).

All it takes is the knowledge, and though I can give you a gateway to that knowledge, You have to want it, you have to walk through that doorway, BUT I am here to provide you with that first step. These are my "promises for a sweet life" promising myself that day to day I will reaffirm everything I already know, and continue utilizing these tools, and spreading the word of their use to people of all ages who are willing to listen. I want to offer You a FREE Gift that opened My eyes and has started me on this journey of personal growth and development ... because that's exactly what this is.
