

WARM WELCOME BIRTH SERVICES

BIRTH DOULA TRAINING & MENTORING

HEART & HANDS DEDICATED TO SERVING
BIRTHING FAMILIES & TINY HUMANS

Greetings!

Is your heart called to support pregnant & birthing families in having the most healthy, positive, and empowering beginning possible with their babies? Doulas provide a special kind of care to growing families. This has profound positive effects on birth outcomes, maternal mental health, and long-term relationships within the family.

Feminist Midwife Michelle L'Esperance of Warm Welcome Birth Services has trained hundreds of doulas since 2001. This is one of the most in-depth doula workshops offered anywhere, one of very few taught by a midwife who also actively works as a birth doula. The course includes guided practice and teaching with pregnant women and partners, as well as pointers on how to launch your practice. All-inclusive tuition covers your Doula Reference Notebook, approximately 30 hours of workshop learning, a

one-on-one virtual mentoring session, review of your qualifying birth documentation, and the opportunity to become a Certified Birth Doula.

There is a requirement of reading 3 books (list enclosed), and observing online childbirth ed classes. Once you've completed the workshop, you can begin working as a doula! Participants attend a few births on a stipend basis as they begin this work, and I provide guidance about how to meet your first clients.

Call me if you have questions about the workshops or what it's like to attend births as a Doula. I'm glad you're considering this- there is such a need for more trained doulas who care about reproductive justice! *You can be a part of keeping birth whole, healthy, and joyful.*

Sincerely,

Michelle

BIRTH DOULA WORKSHOP & MENTORING PROGRAM

"IF A DOULA WERE A DRUG,
IT WOULD BE UNETHICAL
NOT TO USE IT." -KENNELL

Our Birth Doula Training Workshop is your invitation to a deeply rewarding field of work, and is taught by a Certified Professional Midwife who has also worked as a doula for 25 years.

Approximately 30 hours of instruction, lecture, case studies, practice, multi-media presentation, discussion, reflection & integration give you all the essential skills you need to begin this powerful work. Our course is distinguished by a module on the penultimate day of training in which **every new doula teaches and demonstrates labor techniques to pregnant women and their partners under the guidance of the midwife** as part of the virtual Creative Movement: Practical Prep for a Positive Birth.

"I think I feel as confident about beginning to attend births because of the Creative Movement for Birth class. It was incredible to experience that, going from butterflies in my stomach to feeling completely at ease with the pregnant couples. And it definitely reassured me that we learned so much during the workshop, and that this is the work I want to be doing..."

About the Instructor

The Birth Doula Training Workshop has been taught since 2001 by Michelle L'Esperance, (She/her) Certified Professional Midwife.

L'Esperance is a graduate of Smith College (BA Anthropology) and Manna School of Midwifery. She has attended 535+ births in homes, hospitals, and free-standing birth centers since 1996, including serving families in San Pedro Sula, Honduras. Her practice, [Warm Welcome Birth Services](#), includes birth & postpartum doula work, as well as homebirth midwifery. She is the mother of two sons, is Chilean-American, and is fluent in Spanish. L'Esperance is a Qualified Preceptor with the North American Registry of Midwives, and is dedicated to nurturing feminist, LGBTQ+ and BIPOC birth workers.

If you are interested in applying for one of these spots, please write us and share whatever information you feel is relevant. There is a minimum tuition requirement of 50%; BIPOC may apply to choose their own price within that limit. We'll let you know by 6 weeks before the workshop if funds remain, and whether you received a choose-your-price spot for this workshop.

Covid Safety

September 2021 workshop will be held mostly indoors, other than the day 4 parent class if weather is good that afternoon. All in-person participants must provide proof of covid vaccination. Online spots may be available.

Observation of Childbirth Education Classes

As part of your training, you will need to observe a full series of childbirth education classes of at least 6 hours. It is ideal, *but not required*, to observe childbirth ed before the workshop. If there is a cost for these classes, it is not included in your Workshop tuition. Classes will teach or refresh you on labor and delivery, as well as showing you what your future clients are learning. Many childbirth educators are very welcoming of aspiring doulas.

Childbirth Education classes are taught in many locations, such as hospitals, maternity community centers, teachers' homes, and of course, during the pandemic, online. There are excellent independent classes taught by Hypnobabies, Bradley Method and other instructors. You may watch a DVD/video Childbirth Education series (minimum 6 hours) or complete an online course of comparable length such as Pain to Power. Local instructor Mollie Hartford of Crafted Birth offers a discounted class for my students. Local/online Hypnobabies instructor Melissa Steffolano has accepted doulas as observers as well.

If you are yourself an experienced childbirth educator, or have attended a childbirth ed series as an expectant parent within the past year, please contact me about alternatives.

After the Workshop

As the role of the doula is a non-medical one, there is no requirement for additional training, certification, or licensure to begin practicing. Doula work is an ideal early step on the path towards midwifery, apprenticeship, or simply as an effective, direct way to nourish & empower women and families. Many Warm Welcome graduates are active members of the Green River Doula Network. Participants in the Warm Welcome training have gone on to launch their own successful private practices as birth and postpartum doulas; to attend births as volunteers with Bay State Midwifery's Volunteer Doula Program and with San Francisco General Hospital's program; to attend births internationally; and dozens have continued in midwifery, nursing, and obstetrics.

A telephone mentoring session is offered at no additional charge, supporting you as you make connections with your first clients and begin attending births. Birth Doulas generally earn \$800-\$1400+ per birth in Western Mass, depending on services they offer and level of experience. Urban doulas often earn \$1800-\$3000+ per birth.

Birth Doula Mentoring and Continuing Ed

For those who want ongoing mentorship as they grow their doula practice, I offer continuing ed classes. Topics we cover include Speedy Birth for Doulas; Better Cesarean and VBAC; Values Clarification, Race & Birth, Self-Care, Preparing Partners, Supporting Families Before and during Induction, Optimal Nutrition, Unforgettable Publicity, Juicy Relevant Prenatal Visits, Paperwork that Works and much more. See www.birthdoulaworkshop.com for upcoming dates.

Coming Fall 2021: Monthly Mentoring Membership! Receive ongoing support and guidance from Michelle and fellowship with other doulas as you get your practice to the next level. Special rate for doulas trained in 2021.

Apply for the Fall 2021 Birth Doula Workshop. Sept. 15, 16, 18, 19th full days in Northampton MA or online.
