

This image is a collection of 30 hand-drawn sketches of various office and retail display fixtures. The sketches are arranged in a grid-like fashion, showing a wide variety of designs. Some fixtures are simple, like a single shelf or a basic sign holder, while others are more complex, like a multi-tiered display rack or a large, freestanding sign. The drawings are done in a clean, minimalist style using black lines on a white background. Some fixtures are shown in perspective, while others are shown from the front or side. The variety of designs suggests a comprehensive set of options for office or retail environments.

Acrylic Cleaner & Polish

To keep plastics & acrylics scratch free and looking nice we recommend that you use Novus brand cleaners and polish.

Many cleaners, especially those using amonia and other harsh cleaners will dry out plastics and leave a hazy look after repeated cleaning.

Novus brand products are specially made for use with most plastics and acrylics. Keep your plastic items looking good for years to come.
