

The 10 Departments Within Your Business

1. Shareholder. The shareholder's role is to fund the business.
2. Directorship. The directors set the direction for the business.
3. Leadership. Leadership is about leading the implementation of a plan effectively to maximise business efficiency and performance.
4. Product / Service Development. Developing new and existing products or services for sale.
5. Operations / Delivery. Delivery of products or services to generate cash sales.
6. Sales. Convert prospective clients or customers into actual clients or customers.
7. Marketing. Generate leads for sales to convert into clients or customers.
8. Finance. Manage the business's cash.
9. HR. Manage employment related tasks and issues and engage the team.
10. Admin / IT. Management of office tasks and systems to maximise efficiency.

All businesses are required to perform tasks relating to these departments on a regular basis. Our organisation can help you to establish better business functionality, by devising the best structure for your Team, helping you to remove some of the 'hats' you are currently wearing and assessing any resourcing gaps.
