

ICE TAPE™

JUST WRAP IT WHERE IT HURTS

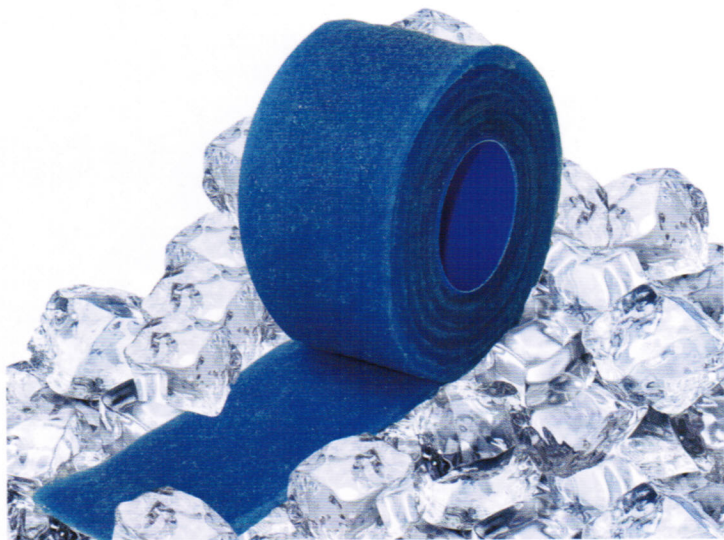

**Delivers cold compression
without refrigeration**

Re-usable • Self-adhesive • Last 5-6 hours

ICE TAPE™

JUST WRAP IT WHERE IT HURTS

Delivers cold compression without refrigeration

- Cools by evaporation 11 - 16°C
- Lasts 5 - 6 hours
- Re-usable
- Self- adhering
- Non-toxic and Latex free
- Easily cut to fit small areas
- Store at room temperature or in refrigerator

Ice Tape is flexible compression bandage that is infused with a hydrophilic (water seeking) gel. When Ice Tape is exposed to air and applied to a body part, the gel feels cold against the skin.

Ice Tape is portable, you do not need a refrigerator to store it making it a convenient cold and compression application. Applying some stretch while wrapping creates compression for the region.

Self-adhering

HM-ICET 5 cm x 1.2 m (2" x 4 feet)
\$11.95 MSRP \$19.95
