Cast Stone

Lighter and more versatile than concrete, these hand crafted tables are molded with crushed Mactan stone, resin and fiberglass for a superior construction that doesn't sacrifice style.

The majority of the product is natural stone which provides a unique surface texture. Each cast stone table is artistically finished by hand to provide a rustic and timeless piece.

Cast Limestone

Our Cast Limestone urns, bases and table tops are naturally waterproof and resistant to damage from freezing and thawing. The GFRC (glass fiber reinforced concrete) construction provides a strong and crack resistant surface.

These fibers along with special additives allow the product to be cast in thin sections. This unique technology creates a light product, while retaining all of its strength. Our specialized cast limestone formula increases the tensile strength and creates a stunning yet durable surface.

Mosaic Porcelain Table Top

Our Mosaic Porcelain Tabletop is distinguished for it's timeless design and resilient construction. The dark grout resists staining and the porcelain tiles offer a maintenance free surface. Naturally impervious to water and heat, our porcelain tile top can stand up to the elements and offer years of functionality and beauty to your patio.

Steel Accessories

For superior weather resistance, all steel lanterns and tables are E-coated with an automotive grade paint system. Each item is then hand painted to create a unique patina. The item's timeless design is finished with an aged texture to mimic a well worn heirloom.

Cushion & Pillow Construction

The core of our deep seating cushion is polyurethane foam wrapped in a thin layer of polyester fiber for added comfort. This technology encourages water drainage while creating a resilient cushion that won't break down over time. Each cushion is then encased with a non-woven bag, which expels water while also giving the cushion a polished look.

Hand Painted Finishes

Our hand grained finishes mimic a rich wood stain. We use only the highest quality Sherwin-Williams® paints and top coats. Our aluminum frames are chemically cleaned, powder coated, hand glazed then finished with a protective clear coat to create a UV stable finish that is suitable for outdoor applications. This attention to detail creates a durable finish with a three year warranty against fading, cracking and peeling.

*See our warranty policy for exemptions and additional information.

Sunbrella® Fabric

Sunbrella fabrics are 100% solution dyed acrylic. The fabric withstands years of normal exposure to the sun and rain while still retaining it's color and strength. Sunbrella fabric is easy to clean with soap and water, it is also bleach cleanable for mildew or tougher stains. Our bright and classic colors resist mildew, rot, chlorine and atmospheric chemicals.

HDPE All-Weather Wicker

Hand woven furniture is a time honored but time consuming task, requiring focused dedication for each complex chair design. Each strand of our all-weather wicker is woven by the hands of our highly skilled and extraordinarily patient craftspeople.

Our all-weather wicker is designed for the outdoors, but beautiful enough for the indoors. The high density polyethylene fibers are UV tested and weather resistant. The wicker fibers won't fade or split, leaving you with a worry free solution all year long.

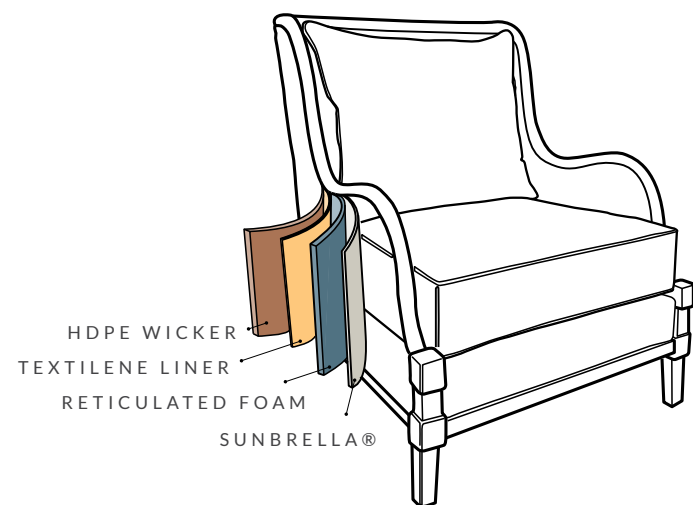

THE NEWPORT COLLECTION IS ENGINEERED TO SHED WATER WITH IT'S SMART UPHOLSTERY CONSTRUCTION.

THE RETICULATED FOAM CORE IS SANDWICHED BETWEEN A TEXTILENE LINER AND THE 100% SOLUTION DYED ACRYLIC SUNBRELLA® FABRIC.

BOTH RETICULATED FOAM AND TEXTILENE LINER ARE FABRICATED FOR QUICK WATER DRAINAGE, RESULTING IN A WORRY FREE OUTDOOR UPHOLSTERED PIECE.
