As a Technology Integration Specialist, I provide leadership and staff development through IT solutions, training and workshops to high school teachers to support student's achievement in the classroom and prepare for university.

During the Last 20 years, I worked as an IT supervisor and developer in universities (12 years), IT High school teacher and Head of IT department (K-12) (8 years).

I am looking forward to working with all of you, please feel free to contact me for any Technology support.

Ashraf Al-Rabah
