LOON FACTS by dnr.state.mn.us

Did you know... That loons have solid bones, unlike other birds, making them less buoyant and better at diving? That loons need a runway of 100 to 600 feet to gain enough speed for liftoff? That loons have four distinct calls – tremolo, wail, yodel and hoot? That chicks can swim and dive after just two or three days, and fly by twelve weeks? That a loon's red eyes help it see under water? That scientists think loons can live 30 years?
