

As Apex Ability Limited  we  are looking to start an AAC social group 

 in Central London  for young people and adults who use an Alternative

&

 and Augmentative Communication Device to communicate. This will be a

 series of inspiring social  events  which will offer AAC users the

 opportunity to meet,  discuss,  share ideas and have fun with  other AAC users and non AAC users. Additionally, there will always be an

 experienced speech and language therapist as part of the event that will

 give the attendees the chance to liaise with an **SLT** and to improve competencies with the device if needed.

Please contact us on ersnsny@gmail.com or [07749381730](tel:07749381730) if you are interested and would like further information.
