

Note:

1) Although this is called a 4-finger exercise, the third (ring) finger is never utilized.

2) The pick directions indicated could be reversed. But it is essential to develop a steady alternating pick technique. Either follow the directions indicated or reverse every single one. Do not follow some and reverse others.

3) Start S-L-O-W-L-Y. Once you can play these scales cleanly and accurately, speed will come naturally.
