

The Gospel of Matthew:

Bread and Betrayal:

1. The disciples are shocked that there could be a wolf in sheep's clothing among them. Why did they not know? How would we know if there are wolves in sheep's clothing among us?
2. How could Judas spend so much time around Jesus and yet refer to Him as only rabbi, instead of Lord?
3. It is tragic that even after Jesus pointed out to Judas that He knew that he was going to betray Him, Judas still does not repent, but moves forward with his plan to betray Jesus. Why did Judas continue with his plan instead of repenting of it right then?
4. The practice of communion comes out of the Passover meal. What are we remembering and proclaiming every time we partake of communion together?
5. What is the likelihood of our plan coming to fruition when it is different than God's plan? Why do we still try then?
