Spring 2021 Conference

Session Name: Modernization and Digital Transformation of current Oracle EBS applications with migration to Oracle Cloud Infrastructure and Implementation of Oracle Cloud Analytics

Presenters: John Barr and Prasad Malandkar, SMACT Works

Time: May 20, 4:00pm

[Register](#)

Abstract:

Our webinar presents the case study of an international cement manufacturer customer who is trying to modernize the current inhouse ERP systems by migrating to Oracle Cloud Infrastructure and implementing new Oracle Cloud Analytics platform with the mission of seeing data in new ways, to discover insights and to unlock the possibilities for business growth.
