Home & School CONNECTION®

Behavior "mysteries"

Is your youngster's behavior sometimes baffling? Here are solutions to common scenarios parents face.

My child behaves in school but acts out at home. Your youngster probably feels more relaxed at home and can let his guard down more with you. Rest assured this is normal. Remind him of the consequences for misbehaving at home, and follow through when he acts out. (And be glad that your child behaves at school!)

After school, my youngster doesn't want to talk about his day or start homework. Your child may be

struggling to switch out of "school mode." Try giving him a break first—he may appreciate a few minutes to unwind, just as some adults do after work. Suggest a snack and exercise, such as riding his bike or jumping rope.

My child only obeys me when I raise my voice. If your youngster knows he has

to do what you ask only when you shout, he'll probably wait for your raised voice before he listens. Tell him that you'll ask nicely once, and after that, there will be a consequence for not listening. ♥
