

*The World's Lightest, Longest
Lasting Powersports Batteries*

“★★★★★” Motocross Action – April 2011

“Shorai provides improved cranking speeds and faster starting...

At no time did the Concourse battery show any sign of weakness...

*All in all, the Shorai LFX series batteries appear to be an excellent OEM Replacement
that offers significant advantages over a lead acid battery!”*

Motorcycle Consumer News – April 2011

*“The Shorai LFX12A1-BS12 battery cranks the Suzuki’s engine over well. Saves weight
and never needs water. Overall we’re very pleased with the results.”*

Road Runner Magazine – June 2011

“Battery Technology – We’ve seen the future” Friction Zone – March 2011

*“Unlike some other home-brewed set-ups you might have seen recently, these units aren’t
just cobbled together from surplus cordless tool rechargeable cells. Shorai batteries use
specially made rectangular section cells so they fit much better than the cylindrical cells
used in a cordless drill. And since the power requirements of a motorcycle are pretty
different from a home appliance, the Shorai units are designed to suit. ”*

Super Street Bike – March 2011
