ORGANIC CERTIFICATE

Sustainability and transparency are key elements to both our brand and the farming methods we use to ensure the protection of the planet and the eco-system we use to harvest the highest quality products.

Working to EU organic regulations and the Soil Association is our way of reassuring all our customers from venders to consumers, that all our farming practices are 100% ethical throughout.

With zero compromise in using agrochemicals and pollutants on all our CBD plantations including extraction.

We are proud to announce that we are among the few pioneers who supply certified organic oils in our industry.

Support Organic Farms! It's time for you to take action and switch to **certified organic CBD oils** and offer your customers premium quality products at affordable costs.

ORANGE BUD CBG

Indoor

Our Orange Bud has been grown indoor and is rich in CBG. Cannabigerol is a cannabinoid with increasingly studied characteristics that could help to treat various eye problems, such as glaucoma, in addition to having a pain soothing effect.

It has bright orange pistils that cover the surface of the bud.

When opened, this variety gives off a pleasant citrus scent that quickly fills the room. Once consumed the flower releases the fresh, fruity aromas of squeezed oranges and nectarines.

PREMIUM TRIM CBD

CBD trim is the result of manicuring dried cannabis flowers. Our premium trim comes from the sieving of our flowers and are therefore still very concentrated in pollen. They are mini-flowers so they are very tasty and can be used for herbal teas, among other things.
