

Skin Sense Spring News

Medik8
BEAUTIFUL SKIN FOR LIFE

Greetings everyone

First, a huge thank you for your valued and continuing support with Skin Sense.

With the introduction of new treatments to the menu, I am pleased to say they are becoming popular:

- Dermaplaning
- Dermal Needling
- Lash Lift
- I have introduced pedicures and manicures to the menu and have some vibrant colours which are both nourishing to the nails and long-lasting.

Pedicures are here. Using Spa Ritual colours which are nourishing to the nail and long lasting.

Pedicures are normally \$55 but now \$50 until October 31st.

Massage is extremely beneficial for:

- Relieving muscle tension
- Improving circulation
- Relaxation and well-being

1-hour massage is normally \$60 but is \$50 until September 30th.

Dermaplaning: This treatment is not new; it has been practised widely in a variety of cultures around the world. It has recently taken the beauty therapy industry by storm and is new to Skin Sense.

Dermaplaning is a physical exfoliation of the skin using a sterile surgical scalpel. Benefits are:

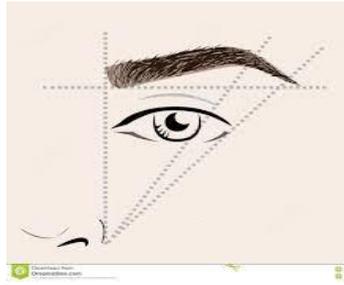

- Removal of fine hair
- Improved texture of the skin leaving it feeling very smooth
- Reduction in the appearance of scars
- Reduction in the appearance of fine lines
- Promotes better absorption of skincare products
- No down time
- Painless procedure
- Suitable for almost all skins except active and inflamed acne.

\$85.00 incorporated as a complete facial or \$65.00 as a treatment.

Eyebrow shaping:

Eyebrows add great enhancement to the appearance of your face if they are correctly shaped to complement your own face shape. I still use this tried and true method, which I also taught with for over 10 years, the Eyebrow Grid. The eyebrow grid provides an accurate guide for hair removal creating the desired and complementary eyebrow shape.

I am proud to be stocking and treating your skin with Medik8 Skincare. Medik8, made in the UK, is The World's Most Sustainable Professional-Led Brand. They have the Forestry Certification and all plastic containers are made from ocean-sourced recycled plastic, and glass is used as much as possible. This means Medik8 is 100% recyclable and is also 100% vegan.

Medik8 has a simple philosophy which takes the mystery out of anti-aging. This philosophy is "CSA":

1. Vitamin **C** in the morning
2. Followed by **Sunscreen**
3. Vitamin **A** in the evening

There are treatment facials to treat a variety of skin conditions and I am incorporating Medik8 into both Dermal Needling and Dermaplaning treatments.

Current offer - Pamper-package which includes:

- **Medik8 Facial**
- **Back Massage**
- **Pedicure**

Normally \$175.00 now \$125.00 until October 31st.

Gift vouchers are available and can be made to treatments or to a value. They are valid for **6** months.

Eftpos is available and Genoapay.

Looking forward to treating you all throughout the remainder of the year and onwards.

Take care

Sarah
