The Problem of the Contemporary Period.
KEY TERMS
Globalization:

Multinational corporations.
North American Free Trade Agreement (NAFTA).
A. Which aspects of globalization do you find most influential in forming the conditions of life around the world at the close of the 20th century? Open discussion session with answers based on personal preferences. Consider various aspects of life: the economy, culture, intellectual life, diplomacy.
B. What are the varieties of prognostication for the future? Which do you find the most meaningful? What sort of future do you foresee?
1. What are the varieties of prognostication for the future? Which do you find the most meaningful? What sort of future do you foresee?
2. In what sense can it be said that the 20th century represents a new period in world civilizations?
3. What trends in political organization and economic development can be identified in 20th-century world civilizations?
4. In what ways has the 20th century offered evidence of human progress? In what ways has humanity regressed?

5. The authors postulate several potential causal factors impacting civilization in the future, including population growth, the exhaustion of frontiers, and technological advances associated with the "post-industrial world." Evaluate the impact such factors are likely to have on the future.
6. Consider the role of traditional civilization identity versus the pace of internationalization in 20th-century cultures.

MAP EXERCISE: Draw a map of the world of the  $22^{nd}$  Century. Identify new borders, new countries, based on trends and your ideas of the future.
