

Good evening, my name is Karen Gallaher, and I am running for the treasurer position. I have been working for the City of Umland, Texas for 16 years. I have years of experience for managing budgets for a municipality and conducting City Councils meetings on monthly basis.

I currently hold certifications in TML Management training, financial training, extensive QuickBooks training, Public Funds Investment Act training that is held yearly. I am aware and have training in both opening meetings act and open records acts. I would bring years of experience in bookkeeping and record management along with records retention and pride myself in keeping records that are accountable and reliable.

It is important to me to have a budget that can maintain the POA and give community members a sense of accountability and provide truth and transparency to ensure that everyone is aware of what is going on.

My Husband Chuck and I have been members of the community for three years and we look forward to retiring down here in the near future. We enjoy fishing, relaxing and enjoying the calm community of the Tri-County POA.

I hope to have your vote and will ensure that I will be here and accountable for all the information that I provide to the community. I look forward to being part of the board and my hope is that I can provide the community with information that they have not had for years.

Karen Gallaher
