

Greetings Tri-County Members,

My name is Shirley Shaddock, and I'm excited to announce my candidacy for the President position on the Tri-County POA Board of Directors. I look forward to working harmoniously with other board members, volunteers, and the office team to make Tri-County POA a great place to live.

On a personal note, I have a 13-year-old son Kendrick, married for 20 years to my husband, John, who retired from the United States Army, dedicating 20 years of service to our great country. We have lived full-time in Tri-County for four years and have been visiting here for almost 10. I am a retired, Medical administrator, served on several boards, and have earned two Presidential Lifetime Achievement Awards from President Obama and President Trump. Therefore, I know what this job entails and believe I have the necessary experience to do it well. I am also very enthusiastic and give my all to every job that I do.

Tri-County POA board members must understand transparency, have a budget, manage the association's finances, deal with disputes, discuss and carry out ideas, and listen to the members, most importantly.

Initially, I had not intended to run for a director's position on the board, as I previously served as office manager for the POA.

However, I decided to run for a place on the board because I know and understand what was once accomplished by board members and what needs to be completed.

It seems that apathy and distrust is the common issue. But, apathy and distrust can disappear in time by having an active, committed board that reaches out to all members and involves them. In addition, it's vital that all members in an association feel they are part of a thriving community.

To accomplish this, the board members must respond to issues that affect the entire association in a unified and professional manner.

In addition, I firmly believe that a solid board can promote more involvement from the members to make our community an attractive and desirable place to live.

Regards,

Shirley Shaddock
