Richardson lays out the tragic history of anti-Semitism within the church from the very beginning in what may be the most thorough repudiation of what has become known as "Replacement Theology", or, as Richardson calls it, "Supersessionism". Flee to the Mountains is not a novel. Jesus Christ spoke of an invasion of Israel at the end of the age - and the Church is responsible to know about it and act on it. This book is about the Church's responsibility to Israel during the final seven years of this age. Specific information is provided about the what, where, why, and next steps to take! By: Christopher Mantei, and others. In, Jonathan Cahn caused a worldwide sensation with the release of his first book, The Harbinger.

It was hailed as "stunning", "prophetic", "mind-blowing", and "astonishing". Cahn followed it with best seller after best seller, but he has always held off on writing a sequel. By: Jonathan Cahn. Many of us have been told that we will be "raptured out of here before the Antichrist arrives". But what if this is wrong? Is this really what the Bible teaches? In this thought-provoking and freshly examined account on the second coming of Christ, Alan Kurschner traces the key topics and passages, providing compelling biblical evidence that the church will first encounter the Antichrist's great tribulation before Christ returns to rapture his people and judge the world.

By: Alan E. Yet this is no reason to fear. By: Michael L. Brown, and others. A comprehensive biblical study of the Nephilim giants - Prepare for startling revelations from the pages of the holy Bible. New discoveries from scripture regarding the nephilim and their fallen angelic ancestors. This is a comprehensive Biblical study of the Nephilim. Exploring passages rarely connected to the giants, you will discover new revelations regarding the Nephilim. By: Ryan Pitterson. Daniel had the most incredible career imaginable; he was transported as a teenage captive to a pagan empire and became the primary confidante to the ruler of Babylon. When Babylonia was taken over by its enemies, he rose to the second or third position in the Persian Empire.

There are only two people in the Bible other than Jesus Christ of which no evil is spoken, Joseph and Daniel. By: Chuck Missler. In The Unseen Realm, Dr. Michael Heiser examines the ancient context of scripture, explaining how its supernatural worldview can help us grow in our understanding of God. He illuminates intriguing and amazing passages of the Bible that have been hiding in plain sight. You'll find yourself engaged in an enthusiastic pursuit of the truth, resulting in a new appreciation for God's word. By: Dr. Michael S. In his latest book, Angels, Dr. Heiser reveals what the Bible really says about God's supernatural servants.

Heiser focuses on loyal, holy heavenly beings because the Bible has a lot more to say about them than most people suspect. Most people presume all there is to know about angels is what has been passed on in Christian tradition, but in reality, that tradition is quite incomplete and often inaccurate. Angels is not guided by traditions, stories, speculations, or myths about angels.

By: Michael S. Rabbi K. Schneider decodes the Book of Revelation, revealing how the end-time events prophesied in the New Testament book correspond with the teachings of the Torah and the Hebrew prophets. You will discover how the Passover foreshadows the great tribulation and what the Hebrew prophets reveal about the anti-Messiah, Armageddon, hell, the return of the Messiah, the millennial kingdom, heaven, and much more. This book will teach you what to expect during the last days and how to stand firm in Christ even in the face of opposition. By: Rabbi K. Schneider, and others. Revelation is a lens that puts the entire Bible into focus. The lens is focused on the person of Jesus Christ, and his destiny is imminent. This is a book of victory: We are overcomers!

We are the ultimate winners in the game of life! I read the ending: We win! One of the reasons this book strikes us as strange is because of our lack of understanding concerning the Old Testament. The Book of Revelation consists of verses that contain over allusions to the Old Testament. These are detailed, along with Chuck's analysis of the design and structure of this fascinating book. The Jewish Gospel of John is not, by any standard, another book on Jesus of Nazareth written from a Jewish perspective. It is an invitation to the listener to put aside their traditional understanding of the Gospel of John and to replace it with another one more faithful to the original text perspective. The Jesus that will emerge will provoke you to rethink most of what you knew about this gospel.

By: Eli Lizorkin-Eyzenberg. Jezebel was the most wicked woman in the Bible, a powerful seductress who killed the prophets, led Israel into idolatry and immorality, and emasculated men. She was seductive and determined to snuff out the voices coming against her. In 21st-century America, Jezebel is not a person. The influence of the same demonic force is being felt in the massive increase of pornography and sexual temptation, the militant spirit of abortion, the rise of radical feminism, and most importantly, in the attempt to silence prophetic voices. Whereas most students of the Bible have long held that some form of humanism or universalist religion would catapult the Antichrist to world power, this book systematically proves the biblical case for an Islamic Antichrist.

About This Item We aim to show you accurate product information. Manufacturers, suppliers and others provide what you see here, and we have not verified it. See our disclaimer. I am firmly convinced that Islam is the single greatest challenge that the Church will face before the return of Jesus, yet most are still either asleep or in denial. Through a highly scholarly, theologically grounded, yet simple presentation, Richardson thoroughly corrects the objections of critics, establishing beyond a doubt, the Biblical case for an Islamic Antichrist.

Specifications Features Hardcover. View 2 comments. Jul 25, Ann rated it it was amazing. This is an exceptionally good book on the End Times and Day of the Lord, so much so that even though I borrowed a copy to read, I wound up buying one for my own reference materials. The Late Great Planet Earth and Left Behind, Richardson uses Old and New Testament Scripture and extensive historical resources to argue among other things that the coming Antichrist will be Islamic, that hi This is an exceptionally good book on the End Times and Day of the Lord, so much so that even though I borrowed a copy to read, I wound up buying one for my own reference materials.

The Late Great Planet Earth and Left Behind, Richardson uses Old and New Testament Scripture and extensive historical resources to argue among other things that the coming Antichrist will be Islamic, that his kingdom will be a resurrected Islamic Caliphate, that he will rise out of the Middle East rather than Europe, that Gog and Antichrist are one. Jan 17, William Harper rated it really liked it. Having always been taught that the

beasts of Daniel represent the Babylonian, Medo-Persian, Greek, and Roman Empires, it was with a healthy dose of scepticism that I read this book. The writer certainly presents a clear and well-thought position, that being that the beasts of Daniel are representative of the Islam Empires. I can not say that I agree with him yet, but the book is certainly well written, and it would not surprise me if he were right. When I reread this, I will surely go more slowl Having always been taught that the beasts of Daniel represent the Babylonian, Medo-Persian, Greek, and Roman Empires, it was with a healthy dose of scepticism that I read this book.

When I reread this, I will surely go more slowly. Dec 11, Dave Smale rated it it was amazing. An outstanding read! Richardson not only makes an airtight scriptural case, but also helps the reader make sense of events transpiring in the Muslim world. A Great Read to Ponder We are over constrained by our western worldview, this book is an excellent eye opener, recommend without reservation also Joel's other books. Feb 25, Enny McSholly rated it it was amazing Shelves: favorites. Through a scholarly, well-articulated theology and a spirit-filled teachings, Joel Richardson struck to interpret the full prophesy about the AntiChrist, his dominion n wars, and the day of the Lord; he explained vividly the regional affiliates of the AntiChrist - of the nations surrounding Israel, and govts that would form alliance with the man of doom.

MidEast Beast opened my inner minds much more that I found it very educative, spirit-centred, and not just a conventional novel or literature. It brought up arguments from scholars, biblical apologists, theologians, I would consider this book as a must-read for all believers and students of the bible. Equally, I think one should not stop at this junction but move further to lay hands on another of his writings - The Islamic AntiChrist, which I can't wait to starting. Dec 30, Sherrese Holder rated it liked it. I rated his book a 3 because his writing style was understandable. The author presented assumptions more than arguments. He did clearly state his assumptions although he was extremely repetitious. However I do not agree with his assumptions. Oct 11, scott j. Awesome book and I highly recommend it to anyone wanting to know the truth! This book is a first that presents with clarity who the players are that come against Israel on the day of the Lord.

Aug 11, Robert Palmer rated it liked it Shelves: christian-prophecy. I generally do not pay much attention to books attempting to interpret Biblical prophecy, especially after I read "The Late Great Planet Earth" by Hal Lindsey when I was a teenager in the 's. Lindsey tried to set dates, which can be appealing to a mass audience, but is a strict no-no in Biblical prophecy Matthew However, given all the recent developments in Islam, I decided to take a look at the "Islamic Antichrist" theory, and I decided to read more than one book on the subject. All three books lay out a plausible interpretation of Biblical prophecy that the Antichrist will arise from a resurrected Islamic caliphate rather than from a resurrected Roman Empire. Davidson's book lays out a more specific projection, and is therefore probably on less substantial ground. Joel Richardson's book is the most cogent, and the one he co-wrote with Walid Shoebat is the most tedious and least well written of the three.

Having read "The Late Great Planet Earth" so many years ago, and having heard many talk of an Antichrist that arises from a resurrected Roman Empire, these books and the theory they espouse found in me a more skeptical reader. Indeed, if anything, they only served to strengthen my belief that one must be very careful in interpreting Biblical prophecy, for they demonstrate that there is more than one way in which prophecy might be understood. But from an entirely human viewpoint, I must admit that these books present a tantalizing account of what might be. Jul 18, Wendy rated it really liked it. Well, this was an interesting but exhausting book. He uses endless biblical references to prove his point which is why it took so long for me to read the book.

He followed the Bible fairly closely in his references. Many of his conclusions were reached by geographical and historical research. I think that he has some validity in his conclusion but I can see tha Well, this was an interesting but exhausting book. I think that he has some validity in his conclusion but I can see that the traditional researchers and end time believers would have great difficulty in believing him and recanting their Roman Empire theories. This is a book that requires the reader to know their bible and be open to a different interpretation. Definitely worth a read by someone interested in end time theology. It ends on a hopeful note, pointing out that the AntiChrist doesn't have the whole world following him so many nations though judged are not destroyed. He is also most insistent that as Christians we are called upon to pray for the Muslim's eyes to be open to the blessings and forgiveness of God so that more of them are saved by God's forgiveness.

Apr 11, Sally Peterson rated it really liked it. I read this book and was not convinced that the Roman Empire did not CRUSH all of the previous kingdoms until I actually read my Bible and compared the maps of all the kingdoms mentioned in Daniel 2. Clearly the Roman Empire did not crush and consume all of the previous kingdoms. But the Islamic Caliphate totally crushed and consumed it! It took at least 20 times of listening to Walid Shoebat until it finally began to make sense. This is HUGE and we are watching the antichrist army being built right before our very eyes. Aug 30, Tyler rated it really liked it. This was a much-needed followup to the author's first book, where he outlined his theological position of an Islamic Antichrist in Christian eschatology.

The first book was good but was dismissed by many as being sensational. Here, the author fully legitimizes himself. This is a systematic breakdown of the most prominent prophetic passages in the Bible, viewed through this new prophetic lens. Whether or not you are convinced, this theory is now a viable theological position. Opponents will need This was a much-needed followup to the author's first book, where he outlined his theological position of an Islamic Antichrist in Christian eschatology. Opponents will need to bring forth answers to the points raised in this book, or they may find themselves fossilized. Dec 27, Brenda rated it it was ok. The book was somewhat interesting but hard to slog through. I agree with him on the Islamic Antichrist, but not sure about some of his other propositions. He was very thorough in backing up his ideas with original language, Scripture, historical documents, etc.

Very detailed. An interesting read if you are into end times! Jan 09, Mike Reynolds rated it it was amazing Shelves: missions , eschatology , islam. An excellent overview of the Islamic Antichrist theory. It includes a great treatment of Daniel 2, , Ezekiel, and more. I consider this a very exegetically pure and convincing argument for the theory. I highly recommend it for anyone who has any interest in the end times and reaching Muslims with the gospel. Dec 20, Anne rated it really liked it Shelves: christian , end-times , middle-east , non-fiction. I have long felt, for at least the past 12 years that the anti-Christ will be a Muslim. Everything I have read seems to agree with me and this book is just another one in the many I have read on this subject, both fiction and non-fiction. Oct 08, William rated it really liked it. Very good book, five stars One question it did leave me with is
