

Phonological Awareness

Phoneme Isolating

PA.039

Sound Quest

Objective

The student will isolate initial, final, and medial phonemes in words.

Materials

► Double-picture cards (Activity Master PA.039.AM1)

► Student sheet (Activity Master PA.039.SS)

Note: The head of the shark denotes the beginning sound, the body of the shark denotes the medial sound, and the tail denotes the final sound.

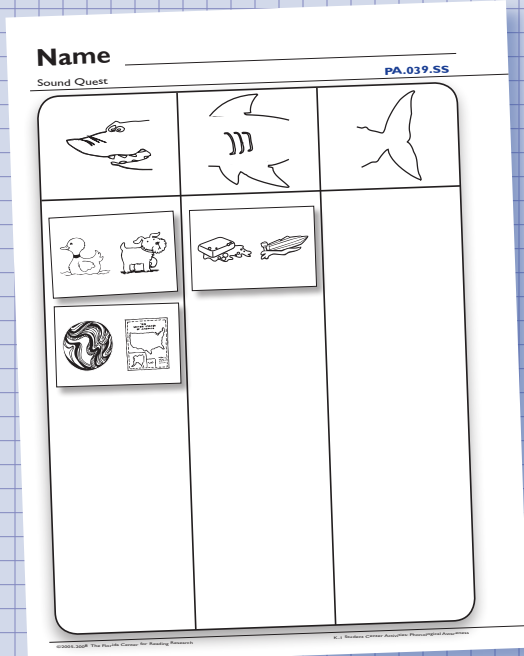

► Scissors

► Glue

Activity

Students sort pictures according to initial, medial, and final sounds.

1. Provide the student with a set of double-picture cards and a student sheet. Place scissors and glue at the center.
2. The student cuts out a double-picture card, names both pictures, and determines if the two pictures share the same initial, medial, or final sound (e.g., “soap, boat; both words have the same middle sound /ō/”).
3. Glues the card under the correct heading (i.e., the middle of the shark).
4. Continues until all double-picture cards are glued on student sheet.
5. Teacher evaluation

The student sheet is titled "Name _____" and "PA.039.SS". It features a grid with three columns and three rows. The first row contains three boxes with illustrations of a shark's head, a shark's body, and a shark's tail. The second row contains three boxes with illustrations of a duck, a cow, a soap bar, and a boat. The third row contains three boxes with illustrations of a globe, a map, and a blank space. The grid is designed for students to place double-picture cards based on their initial, medial, or final sounds.

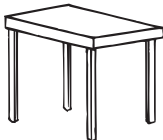

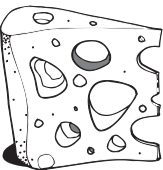

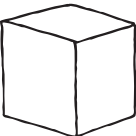

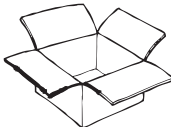

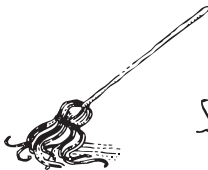

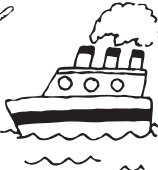

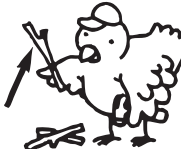

Extensions and Adaptations

- Illustrate other double-picture cards with matching initial, final, or medial phonemes sort.
