

# Ohio Regional User Group

for PeopleSoft and Oracle Cloud

## Spring 2021 Conference

**Session Name:** Implementing PeopleSoft Fluid Open Enrollment and Life Events

**Presenters:** Brian McIntyre, WorkStrategy

**Time:** May 20, 2:00pm

[Register](#)

**Abstract:**

During the session, WorkStrategy will provide an overview of the new 9.2 eBenefits Fluid Enrollment and Life Event functionality, discuss technical design and configuration, and highlight planning and implementation tips. Come hear how customers are leveraging Oracle's PeopleSoft eBenefits, Life Events and Benefits Administration modules to build and manage their comprehensive employee benefits programs. Whether you are implementing Life Events and Benefits Administration for the first time or integrating eBenefits for employee self service, this is the session for you.

**Objectives:**

- Receive an overview of the new Fluid Enrollment and Life Events enhancements including the Benefits WorkCenter
- Learn how to configure the new Activity Guide Composer
- Review best practices related to managing enrollments and confirmation statements
