

WHTA Mini-Tutes 2013

SERIES: Pubocervical Fascia

PART 2: Damage to the Pubocervical Fascia & Anterior Vaginal Wall Prolapse

PURPOSE OF MINI-TUTE

This tutorial describes the different types of anterior vaginal wall prolapse based on whether the defect to the pubocervical fascia is central or lateral (Paravaginal).

Pathophysiology, appearance on vaginal examination and surgical implications are discussed.

DURATION 8min 26sec
