NUTRITION FOR BETTER HEALTH

- Stress Relief / Relaxation (Stress B)
- Improve Nerve Function (B Complex)
- Improve Energy Level (Co Q)
- Helps with heart, Liver and Gum Function (Co Q)
- Support connective tissue and joint function (Glucose plex)

WHY DO WE NEED SUPPLEMENTATION

Due to are busy life styles and work schedules most of us do not eat a well balanced diet. All the nutrients our body needs can be obtained through an appropriate diet with only a few substrates and minerals needing supplementation. However most of us do not have a well balanced diet. For those of us without a well balanced diet, supplementation may be the answer to improve our overall health and reduce many of the common stresses in our bodies experiences.
