

Interac e-Transfers instructions

Interac e-Transfers can be done through most banks & Credit Unions; it is a fast & easy way to pay for your goods and services. In order to pay **Draft Dr's Sales & Service Inc.** through Interac e-Transfers, you must first set us up as a "recipient" in your e-transfer section of your online banking system. During the set-up process you will be asked for the recipients email address, the address we use is payment@draft-doctor.com you will also be asked to choose a question & answer for the recipient, the question we like to use is "What is Canada's favourite beverage?" and the answer is "Beer".

When sending payments you may choose to put the invoice number in the space marked "Memo", this is optional. We will know who the payment comes from and will reply as soon as we accept it.
