Set the Vision

Here at PEARLS, our vision is to provide our community with impactful, creative and meaningful experiences through service work.

We are a multi-service youth organization that looks to approach youth development with a wraparound and holistic lens, allowing our pillars of Empowering and Restoring to drive us. The end goal is contribute to the building of the healthy levels of self-esteem within our community-at-large, but primarily our young girls.

We believe that each young person deserves to become the best version of themselves and we feel that it is our responsibility to assist with the preparation to "pass the baton" and develop confident youth leaders through building competence, birthing confidence and becoming connected with themselves and their communities.

Purposeful Work

Founded in 2020, during the height of the pandemic, PEARLS was created to provide spaces for girls, primarily, to learn how to unapologetically live through their authentic selves. Oftentimes, young people are pressured to be or act in ways that are not conducive to their true character. With PEARLS we want our youth to know that is normal to be who you are. We work with participants, exposing them to opportunities, big and small, using practical ways for them to build on the positive attributes that exist within. Since 2020, we have been able to serve and engage with close to 2,000 people with our wrap approach to holistic youth development.

Our Top 4:

1. Create safe spaces
2. Provide educational experiences
3. Show that girls can coexist
4. Combat stereotypes
