

Security Management Services

Risk Mitigation Technologies, LLC Consultants are uniquely qualified to provide Subject Matter Expertise and consult in the areas of Security Administration and Management. We can be retained to substitute or supplement existing Security Program Leaders. We can provide temporary security expertise to guide or on-board new Security Leadership or within specialized functions such as Security Operations Centers (SOC's), Investigations, or Training. If your organization does not require a full-time Security Director or Security Manager, our Consultants may also be retained as Virtual Subject Matter Experts to provide on-going or Ad-Hoc support and advice on Security Management, Security Technology, Workplace Violence Prevention, Security Investigations, and Threat Management.
