### "How do I prepare my hair for the day?"

You will need to shampoo your hair the night before with a salon professional non-silicon-based shampoo. Using the incorrect shampoo can make the hair slippery and heavy. Shampoo your hair twice and then only add conditioner to the ends of the hair. Blow-dry the hair as smooth as possible (please do NOT use a straightener) and avoid using any products as this can make the hair heavy and hard to hold into place. On the day wear a button up shirt or a silk/satin robe that way you can easily get your formal attire on without disturbing the hair style.

### "What you can expect"

Suzanah comes with a fully equipped Stylist kit including a ring light. Only professional & high-end products are used, catering for all hair types. Brands include: GHD, H2D, Kerastase, Loreal, Kevin Murphy, Natalie Anne and White sands

## Bridal Review

"I was fortunate enough to have Suzanah work her magic on my hair for my entire wedding journey. From my Engagement, to my Kitchen Tea, Hens Night, Pre-wedding party and of course on the Wedding Day! Suzanah was never short of ideas and I was able to trust her with everything. She's creative, professional, honest and patient which are often qualities that are very hard to find in a hairdresser these days. I cannot thank her enough for making everything such a breeze and for giving me one less thing to worry about :) Thank you Suzanah!"

She also has an extensive range of Model Rock full strip & individual lashes ready to compliment any eye shape/size.

## Bridal Review

"Brittany was absolutely amazing and made me feel like an absolutely princess on my wedding day. Having people into my family home on my special day (wedding) is extremely personal, and I could not have asked for a better person to be a part of it. She was very warming. Brittany's makeup was gorgeous, and I received so many positive comments that it was "just right". I absolutely loved what she created for all of us. I was fighting back the tears on my freshly done face when I saw my makeup. Thank you Brittany!"
