BLADDER RETRAINING

1 ¼ hour Bladder Drill (Stage 2 /9)

Instructions:

- 1. Go to the toilet immediately on waking up. Then.....
- 2. Aim to pass urine AT the designated times:
 - → If you get the urge to pass urine before the designated time try the following strategies that are known to relax the bladder:
 - (1) Sit down
 - (2) Contract and hold your pelvic floor whilst you take *3* slow relaxing breaths
 - (3) Rise up onto your toes and tighten your calf muscles
 - (4) Count backwards from 94 by 7's
 - (5) Use your hand to place pressure upwards on the perineum (alternatively, sit on the arm of a chair or the corner of a table).
 - (6) Curl your toes in your shoes.
- 3. If when you go to the toilet you are:
 - Comfortable <u>and</u> Dry tick the C/D column
 - Rushing <u>or</u> leaking: tick the U/W column (Urgency/ Wet)
